Comments for Public Posting: I'm in favor of keeping the short pedestrian segment of Maltman between Effie and Crestmont undeveloped and accessible to the public. It's a great neighborhood resource and with some minor repair and improvements it could become a more useful pocket park. We're proud of our public stairways in the neighborhood and this walk street oasis deserves the same appreciation and support. I use it regularly when walking the neighborhood and would be sorry to see it go.

Comments for Public Posting: To the Los Angeles City Council: My roots are here in Silver Lake! I've lived in this community (Effie/Crestmont) for over 55 years. Attended grammar school at St. Francis of Assisi, took first communion in the old church building and Confirmation in the current church structure. Like many other residents, I am fond of this patch of nature for its rugged beauty, a place for birds and wildlife to seek shelter. It's an oasis of contrast to our asphalt and concrete streets. This space **MUST** remain as a resource for all of us and not be gifted to a developer! We need green zones! Save our green zone! Thank you for your consideration of this matter.
