**Comments for Public Posting:** 12-15-23 The Southern California Coalition for Occupational Safety & Health (SoCalCOSH) is writing in strong support of the LA City Council motion to amend the Los Angeles Living Wage Ordinance and the Los Angeles Hotel Worker Minimum Wage Ordinance requiring \$25/hr now & \$30/hr by 2028, quality health care, and worker protections, as a matter of economic justice, housing justice, and public safety. We know that the health and safety policies embedded in this ordinance provide safer working conditions for the workers that keep LA's booming tourism economy running. Wages that meet the cost of living alongside proper training keep workers safe and healthy which is the vision of Los Angeles that we will continue to strive for. This motion was introduced in April of 2023, almost seven months ago. Meanwhile, tourism workers, despite being the backbone of our economy in Los Angeles, are struggling to keep a roof over their heads as housing costs continue to skyrocket in Los Angeles. LA City Council has the power to ensure these members of our community are healthy and housed, and we urge you to do everything you can to move this policy forward without delay. The tourism industry's recovery from the pandemic was supported with billions of dollars of public investment and it is now assured a future of growth with major events like the 2028 Olympics attracting visitors from around the world to our beautiful city. It's time for the workers at LAX and hotels to get their fair share of the profitable tourism industry that wouldn't be possible without them. If our community members are not making enough money to afford rent, they will continue to be displaced or risk losing their homes. LA already has the highest number of unhoused people in the nation, and it's unacceptable that the workers who are the backbone of a major economic engine are already disproportionately rent-burdened. With the current state of the housing crisis and rising cost of rent, employers in such a profitable and growing industry must pay their workers enough so they can afford to live where they work. Tourism workers were among many frontline workers and communities of color who bore the brunt of the pandemic, yet many still lack quality health care. We're calling for the council's support to ensure our tourism workers receive family-sustaining wages, quality health care, and workplace protections. Our tourism workers are heads of

households, many of them are single parents, and they're our neighbors, friends, and family members. Los Angeles should be a place where everyone can thrive. SoCalCOSH calls on the City Council to rise to the occasion and move this policy forward as soon as possible to ensure that tourism workers are healthy and housed. Thank you for your time and consideration. Sincerely,

The Southern California Coalition for Occupational Safety & Health (SoCalCOSH) is writing in strong support of the LA City Council motion to amend the Los Angeles Living Wage Ordinance and the Los Angeles Hotel Worker Minimum Wage Ordinance requiring \$25/hr now & \$30/hr by 2028, quality health care, and worker protections, as a matter of economic justice, housing justice, and public safety.

We know that the health and safety policies embedded in this ordinance provide safer working conditions for the workers that keep LA's booming tourism economy running. Wages that meet the cost of living alongside proper training keep workers safe and healthy which is the vision of Los Angeles that we will continue to strive for.

This motion was introduced in April of 2023, almost seven months ago. Meanwhile, tourism workers, despite being the backbone of our economy in Los Angeles, are struggling to keep a roof over their heads as housing costs continue to skyrocket in Los Angeles. LA City Council has the power to ensure these members of our community are healthy and housed, and we urge you to do everything you can to move this policy forward without delay.

The tourism industry's recovery from the pandemic was supported with billions of dollars of public investment and it is now assured a future of growth with major events like the 2028 Olympics attracting visitors from around the world to our beautiful city. It's time for the workers at LAX and hotels to get their fair share of the profitable tourism industry that wouldn't be possible without them. If our community members are not making enough money to afford rent, they will continue to be displaced or risk losing their homes. LA already has the highest number of unhoused people in the nation, and it's unacceptable that the workers who are the backbone of a major economic engine are already [disproportionately rent-burdened](#). With the current state of the housing crisis and rising cost of rent, employers in such a profitable and growing industry must pay their workers enough so they can afford to live where they work.

Tourism workers were among many frontline workers and communities of color who bore the brunt of the pandemic, yet many still lack quality health care. We're calling for the council's support to ensure our tourism workers receive family-sustaining wages, quality health care, and workplace protections. Our tourism workers are heads of households, many of them are single parents, and they're our neighbors, friends, and family members. Los Angeles should be a place where everyone can thrive.

SoCalCOSH calls on the City Council to rise to the occasion and move this policy forward as soon as possible to ensure that tourism workers are healthy and housed.

Thank you for your time and consideration.

Sincerely,
