Summary: The Eagle Rock Neighborhood Council supports an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses such as homes, schools, and hospitals.

We also agree with the Department of Public Health's: Public Health and Safety Risks of Oil and Gas Facilities in Los Angeles County report that all operators in urban areas implement better air quality monitoring systems as well as improved local oversight and a comprehensive Community Safety Plan, in coordination with City and County departments, including Fire, Building and Safety, and Law Enforcement.
