Subject: regarding City Council File #17-0447

To: "sharon.dickinson@lacity.org" <sharon.dickinson@lacity.org>, "michael.espinosa@lacity.org" <michael.espinosa@lacity.org>, "maria.espinoza@lacity.org" <maria.espinoza@lacity.org>, "sharon.gin@lacity.org" <sharon.gin@lacity.org>

These letters are submitted on behalf of the many people who care about the health of our communities. A 2500 foot setback is a reasonable and achievable protection for at risk communities - and what each of us would want if we lived close to drilling.

Date: 6-25-17

Los Angeles City Council

**Re: Support for 2500 Foot Human Health and Safety Buffer Around Oil and Gas Extraction in Los Angeles and Motion to Study Creation of Buffer (Council File # 17-0447)**

Dear Council President Wesson and Los Angeles City Council:

The issue of neighborhood drilling is of special concern to me because \_\_\_\_\_

yo apoyo este esfuerzo

I would like to express my support for an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses like homes, schools and hospitals. I would also like to express support for the motion introduced on April 19, 2017 (Council File # 17-0447) directing the City Attorney, Petroleum Administrator and Department of Planning to perform a legal and land use study of such an ordinance. I applaud the leadership of Council President Wesson introducing this motion and to Councilmembers Bonin, Cedillo, Harris-Dawson, Koretz, and Martinez for co-sponsoring the motion.

It is clear that oil drilling operations are wholly incompatible with residential neighborhoods, and I urge the Council to act swiftly to pass the motion for a legal and land use study as an important step toward alleviating the harm that front-line communities experience daily. Every Angeleno deserves to live in a safe, healthy neighborhood.

Thank you for your attention and action on matters that directly impact the health and safety of residents living near oil drilling operations. Please contact me if you have any questions or would like additional information.

Sincerely,

\_\_\_\_\_  
\_\_\_\_\_

I would like to express my support for an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses like homes, schools and hospitals. I would also like to express support for the motion introduced on April 19, 2017 (Council File # 17-0447) directing the City Attorney, Petroleum Administrator and Department of Planning to perform a legal and land use study of such an ordinance. I applaud the leadership of Council President Wesson introducing this motion and to Councilmembers Bonin, Cedillo, Harris-Dawson, Koretz, and Martinez for co-sponsoring the motion.

It is clear that oil drilling operations are wholly incompatible with residential neighborhoods, and I urge the Council to act swiftly to pass the motion for a legal and land use study as an important step toward alleviating the harm that front-line communities experience daily. Every Angeleno deserves to live in a safe, healthy neighborhood.

Thank you for your attention and action on matters that directly impact the health and safety of residents living near oil drilling operations. Please contact me if you have any questions or would like additional information.

Sincerely,

**Re: Support for 2500 Foot Human Health and Safety Buffer Around Oil and Gas Extraction in Los Angeles and Motion to Study Creation of Buffer (Council File # 17-0447)**

Dear Council President Wesson and Los Angeles City Council:

The issue of neighborhood drilling is of special concern to me because it's not safe for people to be living next to oil wells. LA cannot be called a leader on climate issues when it doesn't take care of its own residents. It's environmental injustice for these wells to be operating in the poorest neighborhoods

I would like to express my support for an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses like homes, schools and hospitals. I would also like to express support for the motion introduced on April 19, 2017 (Council File # 17-0447) directing the City Attorney, Petroleum Administrator and Department of Planning to perform a legal and land use study of such an ordinance. I would like to express my support for an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses like homes, schools and hospitals. I would also like to express support for the motion introduced on April 19, 2017 (Council File # 17-0447) directing the City Attorney, Petroleum Administrator and Department of Planning to perform a legal and land use study of such an ordinance. I applaud the leadership of Council President Wesson introducing this motion and to Councilmembers Bonin, Cedillo, Harris-Dawson, Koretz, and Martinez for co-sponsoring the motion.

It is clear that oil drilling operations are wholly incompatible with residential neighborhoods, and I urge the Council to act swiftly to pass the motion for a legal and land use study as an important step toward alleviating the harm that front-line communities experience daily. Every Angeleno deserves to live in a safe, healthy neighborhood.

Thank you for your attention and action on matters that directly impact the health and safety of residents living near oil drilling operations. Please contact me if you have any questions or would like additional information.

Sincerely,

**Re: Support for 2500 Foot Human Health and Safety Buffer Around Oil and Gas Extraction in Los Angeles and Motion to Study Creation of Buffer (Council File # 17-0447)**

Dear Council President Wesson and Los Angeles City Council:

The issue of neighborhood drilling is of special concern to me because \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

I would like to express my support for an ordinance to establish a 2,500-foot setback separating oil and gas extraction operations from sensitive land uses like homes, schools and hospitals. I would also like to express support for the motion introduced on April 19, 2017 (Council File # 17-0447) directing the City Attorney, Petroleum Administrator and Department of Planning to perform a legal and land use study of such an ordinance. I applaud the leadership of Council President Wesson introducing this motion and to Councilmembers Bonin, Cedillo, Harris-Dawson, Koretz, and Martinez for co-sponsoring the motion.

It is clear that oil drilling operations are wholly incompatible with residential neighborhoods, and I urge the Council to act swiftly to pass the motion for a legal and land use study as an important step toward alleviating the harm that front-line communities experience daily. Every Angeleno deserves to live in a safe, healthy neighborhood.

Thank you for your attention and action on matters that directly impact the health and safety of residents living near oil drilling operations. Please contact me if you have any questions or would like additional information.

Sincerely,
