Dear Committee Members,

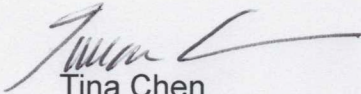

I am the owner representative for the above addresses. The Applicant is seeking approval under the above case numbers.

On September 13, 2018 the City Planning Commission adopted the Mitigated Negative Declaration, Approved and Recommended that City Council adopt the General Plan Amendment, Vesting Zone Change and Site Plan Review.

After consultations with Council District 1, it has been determined that entitlement processing will require more time, therefore, we are requesting an extension of time until March 8, 2019. We agree to waive all applicable time periods under LAMC Section 12.32 within which the City Council must act prior to February 25, 2019.

Thank you for your consideration.

Sincerely,

Tina Chen
President
