**RE: Opposition to the Establishment of Business Improvement District(s) in Venice**

Dear Council President Wesson:

We are writing to oppose the establishment of the proposed Venice Beach Business Improvement District (BID). As a member organization of the Fix LA Coalition, we have worked with labor, community, faith and environmental groups to restore vital city services, increase the revenue for those vital services, increase public participation in the city's budget process, and to invest in the services that put the people and planet first in Los Angeles.

The Venice BID puts the needs of corporations before the community, takes decision-making power about high-impact community projects away from the community and puts it in the hands of a small group of wealthy business owners, and diverts public funding away from city services.

When you hold a hearing and vote on the implementation of the Venice Beach BID on August 23<sup>rd</sup> and 24<sup>th</sup>, **we strongly urge you to vote against the BID. The Venice Beach BID is economically unjust:** The proposed BID in Venice Beach is unique among BIDs for the large percentage of city-owned land contained in the district. If the BID is implemented, the city will be forced to pay over \$450,000 per year from the general fund for the assessment fee.

The underlying premise for the BID is that the City cannot provide the vital services needed for businesses to thrive. Meanwhile, some of the world's wealthiest corporations, such as Google and Snapchat, have enjoyed an 80% tax break from the City. Instead of replacing city services with a BID and paying general fund money into a private entity working to benefit these same corporations, the city should make "Silicon Beach" companies pay their fair share.

**The Venice Beach BID is anti-democratic:** The process for establishing the BID has not been public or transparent, has disenfranchised residents who do not own property, and has decreased democratic control over public resources. Giving away over \$450,000 of public money to a corporate-controlled entity is not the precedent we want to establish for meeting our needs for public services. **The Venice Beach BID will have additional hidden costs:** Business Improvement Districts in the City of Los Angeles, and particularly their private security forces, have a history of hostility toward homeless and low-income residents. Several BID-related lawsuits since their inception in the late 1990s have led to rulings against the city because of the unconstitutional practices of private BID security forces.

For these and other reasons, we urge that any proposal for a BID in Venice be denied.

Sincerely,

ACCE-LA Leadership Committee

Letter: Greetings,

NO B.I.D. FOR VENICE, CA

I am writing to oppose the establishment of a Business Improvement District in Venice. As a longtime stakeholder of Venice, I am concerned about both the Business Improvement District (BID) process and potential implementation.

I oppose for many reasons, including but not limited to:

1. The process for establishing the BID has not been public or transparent. It has not appeared on a Neighborhood Council agenda for comment or approval, and has only been on one Neighborhood Council committee agenda.
2. Very little detail or documents about the potential Venice BID have been made public.
3. Business Improvement Districts in the City of Los Angeles, and particularly their private security forces, have a history of hostility toward homeless and low-income residents resulting in several lawsuits since their inception in the late 1990s regarding unconstitutional practices.
4. Business Improvement Districts are a form of privatization that harms those that don't own property and limits democratic control over resources.
5. Business Improvement District assessments are not feasible for all businesses or property owners to pay, particularly non-profits and small business owners.
6. The founding premise for the Business Improvement District is at fault. It is claimed that a BID is needed because the City of Los Angeles is not providing the proper public services. While this there is accuracy in the fact that the city is not providing services, the solution is

not privatization. I vehemently oppose any privatization of our public spaces and services. The city is responsible for providing the necessary budget to provide these services.

7. Currently, since 2011, global technology companies, such as Google and Snapchat, some of the richest companies on this planet, have enjoyed an 80% Tax Break – our money – taken out of our revenue stream – which isn't and should be invested into our public services. As a result of this Tax Break, "Championed" by Councilman Mike Bonin, the City of Los Angeles has lost Billions of Dollars in income. By making these companies pay their fair share, we will be able to properly fund our needed public services.

8. In 1904, Abbot Kinney deeded Ocean Front Walk to be a public park in perpetuity, which also included sharp restrictions on commerce; therefore the city has no authority to approve a Business Improvement District on this section of Venice.

For these and other reasons, we urge that any proposal for a BID in Venice be denied. Additionally, all documents regarding any plans to date for a BID should be released to the public.

Name	Location	Date	Comment
Benefit Network	Venice, CA	2016-07-29	A BID is just plain BAD - however you slice it! More restrictions, more surveillance, more brutality towards the homeless, more money from tax-payers' pockets, etc., etc., etc. Take your BID and BIN it!!!!
Arthur Max	Venice, CA	2016-07-29	B.I.D. is completely inappropriate to the scale and character of this community. It should be rejected.
sylvia aroth	venice, CA	2016-07-29	No to changing Venice' culture and character! No to taxation without representation!
Jette Sorensen	Santa Monica, CA	2016-07-29	Don't ruin Venice!
Deborah Lashever	Venice, CA	2016-07-29	Abbot Kinney created Venice for The People, not wealthy business owners.
Linda Lucks	Venice, CA	2016-07-29	A BID is. A rally bad idea for many reasons, not least of which is that the adjacent property owners on the walk streets are NOT given a vote. They are excluded!
David Ewing	Venice, CA	2016-07-29	This is an attempt to privatize public space and municipal responsibilities. We've seen BID abuse in Hollywood and downtown. Let's not repeat their mistakes.
Lydia Ponce	Venice, CA	2016-07-29	NO!
Frank Lutz	Venice, CA	2016-07-29	This proposed BID will be run by a public-private partnership which will receive funding from the City estimated to include about \$450,000 from the General Fund, to run the proposed 'clean and safe' services. There appears to be little accountability and oversight built into this process. The assessments on the owners (don't call it a tax) will filter into the coffers of the partnership. We are talking about millions of dollars. Property owners who vote for the BID, will have no say in what goes on with this entity unless they somehow get on its board. Fat Chance! The gerrymandered district includes a huge amount of city-owned property. It is estimated that the assessment from city property will comprise about 25% of assessment monies collected and, in turn, the managers of city land will have 25% of the vote for or against a BID. You already know how the city will vote on this. The deck is stacked in favor of a 'yes' vote for a BID. This new group will create its own quasi police force complete with batons, pepper spray and uniforms to keep 'order.'
Jim SmithJimS	Venice, CA	2016-07-29	A "Business Improvement District" in Venice would work against the best interests of our city which is dedicated to the arts, leisure and recreation.
Miguel Bravo	Venice, CA	2016-07-29	BIDs only reinforce policies that give way to gentrification, displacement, and criminalization. Key creators of this BID are currently are facing charges from the City Attorney for displacement of residents. Too many wrongs about this BID! Lack of transparency and community outreach as well!
jataun valentine	venice, CA	2016-07-29	Not fair to the community.
judith scott	venice, CA	2016-07-30	god. this sounds awfully stupid.
Noel Gould	San Pedro, CA	2016-07-30	This is another strategic move by the development community to further gentrify Venice, and it's the pet project of our money chasing councilman Mike Bonin. This is the LAST thing Venice needs!
Rachel Rai	Venice, CA	2016-07-30	Preserve our Historic Venice Heritage!!! Our historic neighborhood is disappearing before our very eyes due to outside real estate corporations. Locals only!!! Let the real residents of Venice make the decisions.

Fred Dewey	Santa Monica, CA	2016-07-30	This is yet another move by the political and economic establishment to covertly advance their power and wealth, using Venice's resources and vitality to over-rule public process and public space. The establishment wants to neuter the neighborhood council and other public forums, and will work tirelessly to do so. Of course this has advanced secretly. The politicians feel entitled to their privileges. This is one more way to protect themselves and their power.
Fred Dewey	Santa Monica, CA	2016-07-30	The establishment wants to extend and expand covert rule, and the politicians will advance and protect anything for that end. This BID is an attempt to outmaneuver and neuter the neighborhood councils, and other public forums and groups, thereby advancing the power and wealth of the few. It is an outrage against the right of the people to an open and public form of government.
ruth boudreaux	nevada city, CA	2016-07-30	Venice should remain a community run by its own citizens not big companies.

Naomi Nightingale	Venice, CA	2016-07-30	I am against privatization of Venice beach of any part of it because it's just another way of excluding a segment of our population that some feel "unworthy" and to set aside exclusive segments for those who want control, authority and privileged access.

Margaret Kenedy	Los Angeles, CA	2016-08-01	I lived in Venice for 34 years til gentrification forced me out. My grandfather and great uncle went to Venice in the mid 1900s an I would like to preserve whatever history is left of my beloved Venice
Daniel Grossnickle	Santa Monica, CA	2016-08-01	I am very familiar with BID. They are a private security patrol that has police powers. They constantly harassed and assaulted my employees in Hollywood. They accost, detain, search and assault anyone who does not fit the demographic that does not project the image of the target demographic of BID member businesses.
Mindy Taylor-Ross	Venice, CA	2016-08-01	This is yet another attempt for the rich and powerful to take over Venice. And I'm against that.
Brenda Forbes	Los Angeles, CA	2016-08-01	I'm signing because...I don't trust your judgement. When it comes to bending over for their owners, everytime a politician says "trust me", I know I'm going to be the one who gets plucked.
Rod Sweitzer	Los Angeles, CA	2016-08-01	Google and all of these Damn hipsters and trendy and over priced hipster crap ass stores have come in and bought up and ruined Venice. Not a shadow of what it used to be. They have priced, kicked and bought people out. Abbot Kinney is enough to make you vomit these days...Please make it stop!
katerina tana	Venice, CA	2016-08-01	I think that this is a dangerous development that further distorts the way Venice operates and allows an opportunity for corporate interested to hold more sway over how the are is operating.

Roxanne Steinberg	Venice, CA	2016-08-02	I am a long time Venice home owner and resident. I love the spirit and history of Venice. I care that we remain accessible to artists and friendly to the homeless. I appreciate every inch of public space and potential for community. While I am happy that we now have many good restaurants and small businesses in Venice, we need to remain cognizant of the fact that new businesses and development have pushed out mom-and-pop shops, artistic boutiques created by artists, and artists themselves. Even the most successful of these artists, the individuals that actually made Venice the desirable place it is today can no longer afford to live here. With so called "improvement" the heart and soul that makes Venice special gets lost forever.
Teresa Verplanck	Bailey, CO	2016-08-02	It would be tragic to see Venice go the way of Coconut Grove, in Miami, Fl.
Mathilde Karsenti	San Francisco, CA	2016-08-02	Keep venice unique & artFULL. Keep the community intact!
Brittany Sweatt	LA, CA	2016-08-02	Larger Businesses and corporations settling in an area such as this will destroy the local economy. It is not needed or welcome.
Zenji Oguri	Venice, CA	2016-08-02	I have been a resident of venice all my life, and while change is inevitable, this is aggressive to the existing community in favor of those that are insensitive to what has made Venice unique.
Cindy Kay	Chatsworth, CA	2016-08-02	Enough is enough. Thank you
Joshua Dysart	Venice, CA	2016-08-02	This is an engine of purposeful gentrification. Large companies move and in for cheap and then push out the prevailing character of Venice (that of economic and ethnic diversity) to raise the value of their property investments. It's community smashing as an art. Don't let them get away with it.
Ashley Beedon	Playa del Rey, CA	2016-08-02	I love venice the way it is! It is sad to see business owners who have been there for decades being kicked out because of the privatization.

Clive Lonie	Sandwich, United Kingdom	2016-08-02	I whole heartedly oppose the Venice BID proposal. Venice should be for everybody not just an elite wealthy few!
Barry Bunes	Santa Monica, CA	2016-08-02	Even though I don't live there now I used to and the spread of "gentrification" has got to stop. Venice should belong to it's current inhabitants, not rich Chinese investors, or a bunch of yuppies

Jessamine Tepper	Santa Monica, CA	2016-08-02	I grew up in Venice and HATE what it has become. It is now a poser community and no longer the free-spirited town that attracted people to it in the first place. It has lost it's soul. BID would be the final nail in its coffin

			I have lived in Venice for 38 years. My home is within the Venice Neighborhood Council district (my zip code is Mar Vista)
Sharon DiMuro	Los Angeles, CA	2016-08-03	Venice has already been changed enough. The essence of the Abbot Kinney's plan has been mired by gentrification and people coming wanting to change something that was already working.
Richard Checkman	Los Angeles, CA	2016-08-03	I grew up in the Venice area. Venice was always such a unique place. It wasn't ever perfect but that didn't matter and that was part of it's charm. The idea of some sort of private business entity/ entities controlling the city and it's "security" sounds very dystopian. The same way this country doesn't need Donald Trump.. Venice doesn't need BID.

tracy aldrige	Venice, CA	2016-08-03	I'm signing this because I live right here at the boardwalk and don't think a group of private business should control the scene down there. Look what happened when the owner of the Cadillac hotel took things in his own hands.

Mary Anne Thomas	Venice, CA	2016-08-03	I AM SIGNING BECAUSE IT'S TIME FOR A TAX CHAT WITH SNAP CHAT... AND GOOGLE FOR THAT MATTER. All the reasons set forward in the intro. to this petition are valid, especially those which highlight Ocean Front Walk as a PUBLIC PARK IN PERPETUITY. I am signing because people who live on the walk streets, property owners and renters, are being corralled in this BID with no say or oversight. But most of all, I am signing so that the most vulnerable of us, those who live out on the street, are not subject to violence from poorly trained security forces who must hassle people to meet a quota of "contacts"

Leah Ferrarini	Los Angeles, CA	2016-08-03	This is my home. There is little room left for residences in Venice. Forget about affordable housing. Big business promotes the gentrification of BUSINESSES in the area that we don't need. People come to see the smaller shops and jokes in the wall. Send big business to Santa Monica or west la. we can't afford it here. Neighbors like snap chat who have. Turned out neighborhood into a business "campus" are unwelcome

JASON alexander GERRARD	Marina del Rey, CA	2016-08-04	It seems the BID is working under false pretenses and leading us into a venice beach full of the one percent. Only the richest will enjoy it. BIDs are a form of privatization that harms those that don't own property and limits democratic control over resources. BIDs are not feasible for all businesses or property owners to pay, particularly non-profits and small business owners.
