## Summary:

On June 28, 2016, your Committee considered a June 24, 2016 City Clerk report, Ordinance of Intention, Engineer's report, and Management District Plan relative to the establishment of the Venice Beach BID (Property Based). The Engineer's report and Management District Plan are incorporated as attachments to the City Clerk report and all are attached to the Council file. According to the City Clerk, the BID is being established in accordance with the provisions of the Property and Business Improvement District Law of 1994 (Section 36600 et seq., Streets and Highways Code, State of California), which allows for the establishment of a BID in which operations would be supported by revenue collected from property owners in said district. The proposed BID programs include, but are not limited to the following: Clean and Safe Programs, District Identity and Special Projects, and Administration and Management.

In order to proceed with the establishment process under the State Law, the proponent group needed to secure written support for the project in the form of petitions signed by property owners who will pay more than 50 percent of the assessments proposed to be levied. The consulting firm for the proposed BID, Devine Strategies, has presented to the City Clerk a set of petitions that support the formation of the proposed BID. The City Clerk has verified the validity of the petitions using various City and County of Los Angeles sources. In addition, the accuracy of the assessment calculations have been verified.

The petitions received indicate affirmative financial support of the project in an amount equivalent to \$968,902.69. This represents 52.31 percent of the proposed District's projected first year revenue of \$1,871,119. Because the more than 50 percent threshold of preliminary support has been achieved, the formal business improvement district establishment process, including a public hearing before the City Council, may be initiated.

The boundaries of the proposed Venice Beach area are as detailed in the Management District Plan, attached to the Council file. A general description of the boundaries of the proposed District is as follows: The western boundary is geographically determined by the Venice public beach and the Pacific Ocean, and consists of government owned parcels, excluding beach/sand; the southern boundary generally coincides with South Venice Blvd.; the eastern boundary is very irregular and follows along northward to include commercial and industrial zoned parcels, excluding parcels zoned solely residential to Marine Court, then south along commercial and industrial zoned parcels to Horizon Court, then north along Speedway and Ocean Front Walk; and the northern boundary is Barnard Way at the City limit.

There are two benefit zones separated by Westminster Ave. between Riviera Ave. and Pacific

Ave., and the western edge of APN 4238018900 between Mildred Ave. and South Venice Boulevard. All parcels zoned solely residential are excluded from the proposed BID. There are 464 parcels owned by 349 stakeholders in the proposed District.

After further consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the recommendations contained in the June 24, 2016 City Clerk report and detailed in the above recommendations.

Respectfully Submitted,
