Comments for Public Posting: As indicated in the public comments given before this item was adopted, it is ridiculous to have the LAPD investigate themselves and their conduct in their extremely military reactions to the local demonstrations. We will continue to attempt to defund the police as long as they remain a military force waging war on their citizens, regardless of where the funds come from, (in this case, the Police Foundations), and how long it takes. And we have taken note of the fourteen city councilmembers who have voted in favor of this measure in order to replace them with elected officials who can stand up to the police organizations in the next appropriate elections. Thank you.
