It is imperative that funds be maximized to provide housing and not to pay administrative and/or contract costs. Item 28 Tax amnesty for middle income businesses, including rental property needs to be implemented with transparency and accountability. Large corporate businesses should bet be subsidized in this fashion. Items 41 - 43 While it may be necessary to declare a fiscal emergency, the cost burden should not be born by City Workers, especially those earning less than \$80,000. per year. Other economies should be looked at first. Tax breaks for major corporate businesses and large market rate developments/developers should be off the table. The city must bring in revenue in ways that does not negatively impact middle level and lower earners. These are the people most at risk from our state of emergency.
