**Comments for Public Posting:** Yes I agree we need anti-encampment laws now that homeless have been moved to temporary housing. We need laws to keep them out of underpass and near cabin communities within 500feet. They should not be allowed to store their massive amount of items on city streets. There should be a council to enforce this and be able to provide them housing. It is imperative for our children and crime rates. It is the city's duty and obligation to protect the community and care for our rights also. Homeless people have rights too but our children who see these encampments and walk thru them have rights too and deserve a safe place to live in and feel protected.
