Comments for Public Posting: Encampment sweeps, as a response to the homelessness crisis, are neither effective nor compassionate. There are other, better ways to address this problem. Placing it in law enforcement's lap has been a failure. It's time to invest in the social services AND REAL ESTATE necessary to house and rehabilitate the majority of homeless people in our city.

Comments for Public Posting: Many Echo Park residents live in apartment buildings without yards and therefore Echo Park Lake is their only access to green space. The current state of the park and lake is a huge threat to public health and safety and the homeless encampment is most certainly a Covid hotspot.
