Comments for Public Posting: The West Valley Animal Shelter plays a vital role in providing a wide range of animal services to a large area of the valley. During this time of global warming, fires, a pandemic, and protests, the West Valley shelter plays a vital role in saving animal lives and providing services to people who have enough stress in their lives without a needed, long time institution disappearing!

Comments for Public Posting: I would like the West Valley Animal Shelter to remain a full municipal shelter, as it was prior to it's closing in April 2020.

Comments for Public Posting: The closure of West Valley Animal Shelter has caused undue stress on neighboring shelters and endangered the animals rescued. I ask that you reopen the West Valley Animal Shelter as a full municipal shelter, so that it may return to the operational capacity observed before to the start of the pandemic and provide relief to both the pets and other shelters in the area.

Comments for Public Posting: Dear Los Angeles City Representatives: I would like to express my stance that the West Valley Animal Shelter should remain a full municipal shelter, just as it was prior to its closing in April 2020. Prop F was a bond measure we taxpayers approved in 2000 to build, expand, and renovate the city's animal shelters. The San Fernando Valley was supposed to have 3 shelters but one was already given to a private rescue organization. If West Valley is also given away, that would leave only one shelter to serve over 1.5 million people and 260 square miles in the SFV and that is not acceptable. It is your privilege and responsibility to protect and respect the will and voice of your constituents. I implore you to uphold the duties of your office, and move to keep the West Valley Animal Shelter open as a full service municipal shelter, just as it was before its closing due to COVID-19. Kathleen Edwards Porter Ranch resident

Comments for Public Posting: The gross mismanagement that allows the West Valley Shelter to remained closed during the recent heat waves is unfathomable. West Valley is air conditioned, East Valley is not. West Valley can accommodate horses. During the worst fire season California has ever seen the West Valley Shelter remains closed. Why? Who is making these decisions and why are they not held accountable???

Comments for Public Posting: Brenda Barnette needs to be fired immediately and an independent investigation needs to happen asap. So many animals killed under her watch, complete incompetence. What are you doing to stop her? Why are you letting this happen? Allowing this makes you all accomplices under state law. Two shelters still closed? Please explain why you are leaving animals in the streets?

Comments for Public Posting: Brenda Barnett closed the West Valley shelter (had air conditioning and newly updated) The community relies on this facility to adopt or find lost pets. A horse was kept in a dog play yard . How traumatizing. Many people also lose jobs when an agency closes. Dogs and cats kept in an old facility :120 degree heat without proper care and airconditioning. This is unacceptable . Ms. Barnett should face consequences!!
