

**CITY OF LOS ANGELES**  
INTER-DEPARTMENTAL CORRESPONDENCE

CAO File No. 0220-05816-0000  
Council File No: 20-0600  
Council District: All

Date: December 3, 2020

To: Honorable Members of the Budget and Finance Committee

From: Richard H. Llewellyn Jr., City Administrative Officer

Sharon M. Tso, Chief Legislative Analyst

Subject: **REINVESTMENT OF POLICE FUNDS TO IMPACTED COMMUNITIES**

## SUMMARY

The Fiscal Year (FY) 2020-21 Adopted Budget instructed our Offices to report with recommendations on a structure for the reinvestment of funds from the Los Angeles Police Department (LAPD) budget to impacted communities. The Adopted Budget reallocated \$150 million from the LAPD's FY 2020-21 Proposed Budget for this purpose and provided an initial structure for its reinvestment as follows:

- \$ 10 million – Economic and Workforce Development Department (EWDD) for summer youth development and workforce development to benefit youth from disadvantaged communities and communities of color
- \$ 10 million – Unappropriated Balance (UB) Reserve for Mid-Year Adjustments Account No. 580196 and Reserve for Unrealized Revenue Account No. 580230
- \$ 40 million – UB Reduction of Furloughs Account No. 580319
- \$ 90 million – UB Reserve for Preservation of City Services, Reinvestment in Disadvantaged Communities and Communities of Color, Reimagining Public Safety Service Delivery, and Targeted Local Hire (TLH) Program Account No. 580318

The above reinvestments specify uses except for the \$90 million in UB Account No. 580318 (580318), which states various potential uses in its title. Further, the Council is in the process of considering a number of motions introduced in relation to potential uses of 580318. Most recently, \$1,195,474 was appropriated from 580318 to the Civil and Human Rights Department (CHRD), reducing its available balance to \$88,804,526 (C.F. 20-0761).

The recommendations in this report are dictated by the current financial status of the City budget as reported by the City Administrative Officer (CAO) in its First Financial Status Report (FSR), dated October 23, 2020. The First FSR stated a revised year end revenue gap estimate range of \$400 million to \$600 million along with various potential over-expenditures that have yet to be fully addressed. Given the City's current financial status and preliminary FY 2021-22 budget

outlook, the 580318 available balance should be viewed as one-time funding. Since it is a City financial policy to use one-time funding for one-time expenditures rather than ongoing expenditures, our Offices recommend that any additional appropriations from 580318 should be one-time in nature. Of the potential uses identified for 580318 in its title, reinvestment in disadvantaged communities and communities of color seems best suited for developing services and projects that may be provided on a one-time basis. This reinvestment could potentially include one-time pilot projects relating to the reimagining of public safety service delivery within these communities.

## **RECOMMENDATIONS**

That the City Council, subject to the approval of the Mayor,

1. APPROVE the apportionment of funds from General Fund No. 100/58, Account No. 580318, based on population counts of the “highest need” census tracts identified by the Economic Workforce Development Department as part of their assessment of disadvantaged populations (Attachment 1);
2. APPROVE the following criteria for the use of the available balance (up to \$88,804,526) within General Fund No. 100/58, Reserve for Preservation of City Services, Reinvestment in Disadvantaged Communities and Communities of Color, Reimagining Public Safety Service Delivery, and Targeted Local Hire (TLH) Program Account No. 580318:
  - a. Allocate this funding to one-time expenditures;
  - b. Direct this funding to provide services and projects that benefit disadvantaged communities and communities of color in “highest need” census tracts included in Attachment 1; and
  - c. Ensure immediate benefit and impact from this funding by requiring the expenditure or encumbrance of this funding before June 1, 2021;
3. INSTRUCT departments to use the following categories for services and projects resulting from Recommendation 2:
  - a. City Services/Beautification;
  - b. Recreation/Youth Programming;
  - c. Jobs/Economic Development; and
  - d. Non-profit/Community Investment.
4. REQUEST that Council Districts, with assistance from the City Administrative Officer and the Chief Legislative Analyst, and in cooperation with relevant departments, to identify services and projects adhering to Recommendation 2 and 3 criteria for funding within their apportionment amount as illustrated on Attachment 1 by February 12, 2021; and
5. DIRECT the City Administrative Officer and the Chief Legislative Analyst, with assistance from relevant departments, to report to Council by February 28, 2021 with appropriation instructions from General Fund No. 100/58, Reserve for Preservation of City Services, Reinvestment in Disadvantaged Communities and Communities of Color, Reimagining Public Safety Service Delivery, and Targeted Local Hire (TLH) Program Account No. 580318 to departments in order for them to begin providing services and delivering

projects resulting from Recommendation 4 before June 1, 2021, with any services and projects having a start date on or after June 1, 2021 being considered as part of the Fiscal Year 2021-22 Budget.

## DISCUSSION

*Reinvestment of Former Los Angeles Police Department Funds in Disadvantaged Communities*  
Our Offices, with assistance from the Office of the Council President, have begun compiling a list of potential services and projects from Council Offices, and additionally, with assistance from departments, have begun costing these out. Potential services and projects that would result in reinvestment in disadvantaged communities and communities of color generally fall under the following general categories:

1. City Services/Beautification;
2. Recreation/Youth Programming;
3. Jobs/Economic Development; and
4. Non-profit/Community Investment.

All Council District requests received to date are included in the attached list (Attachment 2). The CAO and CLA continue to work with departments and Council Offices on the cost estimates for each.

The City is experiencing an ongoing fiscal crisis and the pandemic has heightened the need for services to disadvantaged communities and communities of color. Therefore, this funding should be allocated to projects and services that meet the following criteria:

1. Require one-time funding for implementation and will not create an ongoing liability;
2. Provide enhanced services to disadvantaged communities and communities of color in the City; and
3. Ensure immediate benefit and impact by expending or encumbering these funds before June 1, 2021.

It is recommended that our Offices continue to work with Council Offices and departments to develop potential services and projects for reinvestment in disadvantaged communities and communities of color and group them using the above categories. It is further recommended that services and projects that would result in the expenditures and encumbrances of these funds before June 1, 2021 be given priority since the Council and Mayor have repeatedly expressed an urgent need in these communities. Any services and projects that would result in the committing of funds on or after June 1, 2021, should be considered as part of the FY 2021-22 Proposed Budget.

*Targeting Resources*

Aside from continuing to develop potential services and projects for reinvestment in disadvantaged communities and communities of color, our Offices were instructed to propose a methodology for allocating 580318 amongst these communities throughout the City. The CAO requested the EWDD to provide data on Socioeconomic Data Composite Scores to assess the highest need communities throughout the City by Council District.

The EWDD provided the data which consists of rankings of the City's census tracts based on four measurement factors: college education attainment, median income, federally defined poverty level, and unemployment. The rankings are based on data collected through the 2018 American Community Survey. Each census tract was given a composite score and ranked from highest need to the lowest need. Of the 1,003 census tracts in the City, 203 (20%) received a rank of highest need.

Our Offices recommend that 580318 be allocated to these census tracts based on population and that our Offices be instructed to continue working with Council Districts that contain these census tracts to develop one-time services and projects that do not exceed the amounts by Council District as illustrated on Attachment 1, and report to Council and Mayor by February 28, 2021 with appropriation instructions necessary to deliver said services and projects that would result in the committing of said appropriations before June 1, 2021.

#### **FISCAL IMPACT STATEMENT**

There is no additional impact on the General Fund as a result of the recommendations in this report. Any unexpended/unencumbered balances will have a positive impact on the General Fund in FY 2021-22.

#### **FISCAL POLICIES STATEMENT**

The recommendations in this report comply with the City Financial Policies inasmuch as one-time funding is being used for one-time purposes.

**Reinvestment of Former Los Angeles Police Department Funds**

As of November 25, 2020

Page 1 of 14

No.	Department	Council District	Location/ Neighborhood	Program/Services	Description from Council District
1	RAP	1	Pico Union	Park Improvements	There are gaps for the Pico Union Vest Park 500k. The scope of work includes new playground, lighting, ADA water fountain and decorative fencing. Landscaping is very minimal on that small lot.
2	RAP	1		Park Improvements	Cesar Chavez Community Garden (1136 S. Union): This is a contaminated site owned by CRA. LASAN is working on the soil remediation and the site will be transferred to RAP once it is clean. BOE is designing the park project. The proposed scope is as follows: construction of a community garden, landscaping, and a small play or fitness area. The amount of \$132k (CDBG) was provided to BOE for design. RAP is expected to receive \$367k in future CDBG funds. Project costs are currently unknown as project design has not been completed.
3	BSS	1	Pico Union	Streetscape Improvements	Mayan Corridor Streetscape Improvement: The project is located on 6th Street from Park View St. to Loma Dr. and will highlight Mayan culture. The scope of work consists of the following: gateway arch structure, custom crosswalks and scrambles, decorative sidewalk paving, custom bus safety lights, wayfinding signage, street furniture, roadway upgrades, tree planting, street amenities bolted to the ground with anti-vandal hardware, etc.
4	BSS or EWDD	1		Street Vendors	Funding for equipment, carts, permits, etc. (supplementary to established funding sources from city and county)
5	LAPL	1		WiFi Hot Spots	Pilot program for the distribution of wifi hotspots at CD 1 libraries for youth.
6	RAP	1		Recreational Programming	Funds for community groups to use the park facilities in particular, Levitt Pavilion at MacArthur Park and Sycamore Park Stage

123	BSS	10		Street Improvements	<ul style="list-style-type: none"> <li>• Asphalt Concrete Pavement: Degnan Blvd from 43rd Street to 43rd Place</li> <li>• Concrete Pavement reconstruction: Degnan Blvd from 43rd Street going south (250 Lf to 300LF)</li> <li>• Concrete Pavement Patchwork; Degnan Blvd from 43rd Street to 43rd Place</li> <li>• Concrete Street Reconstruction: Degnan Blvd from 43rd Street to 43rd Place is estimated to cost about \$1.7M. Hence, we are short of \$800K to reconstruct the Degnan Blvd with concrete pavement.</li> </ul>
124	DCA	10		Cultural Facilities	Vision Theater - 3M in gap funding for the Vision Theater for sound, staging and lighting equipment
125	Nonprofit: Bresee Foundation	13		Youth Programming	Bresee Foundation: provide paid internships to a group of youth already accessing services at Bresee. The focus of the internship would be civic engagement, leadership skills, team setting skills and the common goal of beautification in their own community.
126	Nonprofit: Visionary Youth Center	13		Youth Programming	Visionary Youth Center (VYC): the organization works closely with the USC School of Social work. The funding would go toward a year long program in which a small group of VYC participants in need would work hand in hand with a counselor with a focus on mental health.

127	BSS	15	Watts	Street Resurfacing	112th St. between Croesus Ave. & Mona Blvd: This is a top priority for Watts.
128	BSS	15	Watts	Public Works Improvements	<p>Public Works Improvements-Sidewalks, curbs, and curb cuts. This part of Watts does not have safe, accessible sidewalks for the students and families who live here. Cars are parked on the dirt sidewalks adjacent to homes, without a safe buffer for pedestrians. which forces residents of all ages to walk directly in the street. People who are disabled have no safety when traveling east or west on 107th St.</p> <ul style="list-style-type: none"> <li>o 107th St. Going East from Wilmington Ave. to Mona Blvd:</li> <li>o From Wilmington Ave to Grape St. on the north and south sides of the street there are no sidewalks or curb cuts. I would like to install both if possible.</li> <li>o From Hickory St. to Lou-Dillon St. There are no sidewalks or curb cuts.</li> <li>o From Lou-Dillon St. to Croesus Ave there are side walks with no curb cuts.</li> <li>o On 107th St. &amp; Juniper St. on all corners there are curb cuts needed.</li> <li>o On 107th St. &amp; Kalmia St. on all corners there are curb cuts needed.</li> <li>o On 107th St. &amp; Gorman Ave. on all corners there are curb cuts needed.</li> <li>o On 107th St. &amp; Weigand there are curb cuts needed on both corners of the NW &amp; NS corners of Weigand Ave.</li> </ul>

129	GSD	15	Harbor Wilmington	Recreational Facility Improvements	802 W Gardena Blvd   Boys and Girls Club of the Harbor. The Building is the property of the City of Los Angeles, managed by GSD. The building requires a fire alarm sprinkler system, structural changes to accommodate the growing club, exterior and interior painting, and new outdoor irrigation, landscaping, lighting, and cameras. This is the ONLY after school children and youth program in the harbor gateway north community, serving over 200 students in the region. This investment is for the youth and hundreds of families who rely on the BGCLAH for the care of their children and their academic and leadership development.
130	GSD	15	Harbor Wilmington	Recreational Facility Improvements	1435 Del Amo Blvd   Boys and Girls Club of Los Angeles Harbor. This is another City of LA facility, recently inherited by the Boys and Girls Club of the LA Harbor after the site was originally gifted to the community in 2007 when 14-year old Cheryl Green was caught in the crossfire in the area. The site is located in the Harbor Gateway South community, the only youth program in that area. It is currently not active because the trailers are very old and it is not safe for children or anyone to be in. The entire site requires new trailers and is in need of landscaping and lighting.
131	Nonprofit: USC/Boys & Girls Club of the LA Harbor	15	Harbor Wilmington	Jaycee Sports Complex, Mini Soccer	CD15 is working on a plan with USC and the Boys & Girls Club of the LA Harbor (BGCLAH) to manage the LA County Sanitation 17-acre fields and transfer the lease from the Jaycee Foundation to USC/BGCLAH. USC has displayed a huge interest to invest in the fields for track & field use for the 2028 Olympics. This space can be used by Wilmington Soccer Club and other sports groups, locally, who develop players from elementary school to high school. Improvements include new lighting, ADA restrooms, and field restorations

132	RAP	15	Watts	Park Improvements	Lights and Benches at Grape St. Park This project is important to the residents around Grape St. Park, light is key as it can give visibility to its visitors, it can clarify the layout of the park by emphasizing walkways, focal points, gathering places, and structural entrances. When giving the opportunity, lighting improves the quality of life by making people visible and the enjoyment of a site.
