

PUBLIC WORKS & GANG REDUCTION

MOTION

On March 5, 2002, under Council File No. 01-1459, the City Council adopted new procedures for processing street/alley vacations, which require the adoption of a Rule 16 Motion to initiate street/alley vacation proceedings at the request and instance of an application from a petitioner. Under these new procedures, when a petitioner submits an application and a fee deposit to the Bureau of Engineering (BOE), the Chair of the Public Works Committee is required to introduce a motion for initiating the investigation of the vacation and the assignment of a Council File Number.

The portion of S. La Fayette Park Place between Wilshire Boulevard and Hoover Street is designated as a Standard Local Street in the 2035 Mobility Plan with a corresponding designated right-of-way width of 60 feet and designated roadway width of 36 feet. The existing street is over-dedicated to a right-of-way width of 120-feet. The processing of this street vacation will support improvements to public and private infrastructure while maintaining adequate roadway and public right-of-way widths.

Additionally, the adoption of the following recommendations does not constitute or imply approval of the vacation.

I THEREFORE MOVE that upon adoption of this motion, street vacation proceedings to vacate the easterly-half of La Fayette Park Place between Wilshire Boulevard and Hoover Street, be initiated pursuant to California Streets and Highways Code, Division 9, Part 3, Public Streets, Highways and Service Easements Vacation Law.

I FURTHER MOVE that the Bureau of Engineering be directed to investigate the feasibility of this vacation request.

I FURTHER MOVE that the Bureau of Engineering present its report regarding the feasibility of vacating the requested area to the Public Works Committee.

I FURTHER MOVE that upon the review of the Public Works Committee, the City Clerk be directed to schedule this request for the City Council's consideration at the appropriate time under the City's Street Vacation procedures.
