Comments for Public Posting: Please don't get rid of the last standing valley orange grove! When I move here in the 60's the valley was loaded with orange groves and it smelled & looked beautiful! Today it is cement city and it smells like it!

Comments for Public Posting: I went to elementary school across the street from the orange grove. We took field trips over there. It was always so cool to peer through the fence and take a look at what was going on. As a kid in the 90s I didn't have the knowledge of the history of the grove. Knowing all of it now, mixed in with my personal memories, it would be a terrible shame to see a great piece of the SFV go away forever.
