Comments for Public Posting: RE: Council File Number: 20-1596 Title: 1427-1433 South Greenfield Avenue Case Reference Number: DIR-2019-277-YOC-DRB-SPP-1A Dear Members of the Los Angeles Planning and Land Use Committee: We support new housing and affordable housing in Los Angeles and encourage use of Public Transportation. That was the premise, purpose and intent of Measure JJJ which we voted and approved on November 7, 2016. Objections to this particular project are based on the uniqueness of the site and its location. A summary of damages to the immediate neighborhood have been submitted. Difficulties that compromise existing landowners' and tenants' rights have been raised. Unmitigated and undirected procedures and haul routes for the enormous quantity of earth moving has been questioned. This is not intended to restate what has already been stated but is intended to influence an eye on the problems with the commitment to do the right thing. We encourage the PLUM Committee members to address the objections directly discourage this development based on relevant and clear objections raised. Sincerely, Oren Lavee
