### Taylor Yard River Park - Parcel G2 Land Acquisition (CD-1)

The concern of the Proposition O Citizens Oversight Committee is the qualifications for this project under the bond and the criteria set. There has to be water quality benefits and this parcel is directed to the River Revitalization acquisition, not the bond criteria.

There needs to be a Concept Report specific to Prop O and ranking for Project qualification, after the technical memorandum report on possible contamination.

There may be no way for a wetland or riparian slope to exist.

May we remind, you that the bond read:

*All projects shall provide **water quality benefits and have as their primary purpose the reduction of pollutant loads** to the impaired waters of Los Angeles to meet water quality standards.*

Our concern matches the Prop O Citizens Oversight Committee and that this project will not qualify as a Prop O project. No allocation should be approved until the presentation of the technical memorandum and discussion of the results.
