Comments for Public Posting: Please pass this ordinance. Residents of Los Angeles have had their homes, privacy, traffic safety and private lives raped and plundered by tour buses for years and the city has done nothing to protect us in the past....this ordinance is the first step in the right direction to protect communities from greed and disrespect for the laws by the tour buses. Our residential streets are the gateways to our homes not a carnival ride for tourist. Please do the right thing and pass this ordinance.

Comments for Public Posting: Pit's unbearable, too many vans stopping in the middle of Mulholland to let tourists take pictures. This is a very dangerous situation. Some of these Van drivers make up things, tell tourists celebrities live in houses where friends of mine live. It's such an unmonitored rip off for tourists who spend money to take these tours. Shame on our city officials for allowing this. These tour companies should apply for a costly license and be forced to hire only licensed tour guides/drivers who do not lie to tourists in order to make money. If this was to take place the number of Vans offering these tours would automatically diminish and we would have a safer and less noisy neighborhood

Comments for Public Posting: Not only do tour bus drivers slow down and sometimes stop in the middle of Mulholland with no regard to cars behind them, I have often seen them let their clients out of the bus at scenic outlooks on Mulholland and let them smoke. I did confront a driver about this. She stated to me it's not her responsibility to inform them, even when No Smoking signs are posted at these outlooks. Regardless to say, this is very dangerous for all of us residents living and driving in the hills.

Comments for Public Posting: The proliferation of tour buses and vans on the canyon streets and Mulholland Drive is causing unsafe and highly irritating traffic problems. These vehicles are frequently driving across median lines on narrow streets and also moving at slow speeds encouraging other drivers to attempt unsafe passing maneuvers. Along with the increasing usage of Waze and other navigation apps traffic conditions on our curving and narrow streets like Nichols Canyon are an ever-growing problem. Regulation is needed urgently. Thank you.

Comments for Public Posting: The tour buses are always stopping in the middle of a lane- very dangerous- my understanding is they are NOT allowed to stop. We live on Woodrow Wilson (across from a major celebrity) and there are endless tour buses all day long...again- stopping not just moving along with the flow of traffic. Very obnoxious- an invasion of privacy and ruination of the peace and tranquillity we moved to the beautiful Hollywood Hills for! Also, I think it creates additional security problems with outsiders privy to where various people live!!!
