**Comments for Public Posting:** I urge Council Members to vote against allowing LACMA to build across Wilshire Blvd for the proposed "new" LACMA. The beautiful "Miracle Mile" would be scarred by such a construction, much like other classic residential areas of Los Angeles have been marred by ugly, outsized "boxes" that continue to replace the beautiful homes that add so much to their neighborhoods. The proposed museum itself is a monumental blunder in my opinion, being an expensive replacement for some historic Pereira buildings and designed to hold less of the museum's collection than it already does. I fail to see how that is an improvement. I have been a LACMA member for many years and I hate to see what is happening to it and the entire neighborhood.

**Comments for Public Posting:** Dear Los Angeles City Council, I oppose the street vacation granting the air rights over Wilshire Boulevard for LACMA's new building project. I oppose tearing down a much loved and significant Los Angeles landmark - the Perreira designed Lacma building. I am against this not only because I feel these buildings must be preserved, but also because the new museum is unnecessary, smaller, will take very long to get completed, and will burn funds that could be spent much better. Let them find another place to build this new museum. Not on Wilshire Boulevard, and not by tearing down the Lacma we love. Thank for letting reason rule this decision. Christina
