**Final**

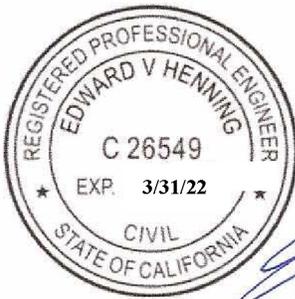

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**ASSESSMENT ENGINEER’S REPORT**

To Whom It May Concern:

I hereby certify to the best of my professional knowledge and experience that each of the identified benefiting properties located within the proposed East Hollywood Business Improvement District ("EHBID") being renewed for a ten (10) year term will receive a special benefit over and above the benefits conferred on the public at large and that the amount of the proposed assessment is proportional to, and no greater than the benefits conferred on each respective property.

*Prepared by Edward V. Henning, California Registered Professional Engineer # 26549*

A handwritten signature in blue ink that reads "Edward V. Henning". The signature is written over a horizontal line that serves as a baseline for the name and date.

RPE #26549 November 10, 2020

*(NOT VALID WITHOUT SIGNATURE AND CERTIFICATION SEAL HERE)*

**Introduction**

This report serves as the “detailed engineer’s report” required by Section 4(b) of Article XIID of the California Constitution (Proposition 218) to support the benefit property assessments to be levied within the proposed EHBID in the City of Los Angeles, California being renewed for a ten (10) year term. The discussion and analysis contained within this Report constitutes the required “nexus” of rationale between assessment amounts levied and special benefits derived by real properties within the proposed renewed EHBID.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

### **Background**

The EHBID is a property-based benefit assessment type district being renewed for a ten (10) year term pursuant to Section 36600 et seq. of the California Streets and Highways Code (as amended), also known as the Property and Business Improvement District Law of 1994 (the “Act”). Due to the benefit assessment nature of assessments levied within a property and business improvement district (“PBID”), district program costs are to be distributed amongst all identified benefiting properties based on the proportional amount of special program benefit each property is expected to derive from the assessments levied. Within the Act, frequent references are made to the concept of relative “benefit” received from PBID programs and activities versus amount of assessment paid. Only those properties expected to derive special benefits from PBID funded programs and activities may be assessed and only in an amount proportional to the relative special benefits expected to be received.

### **Supplemental Article XIID Section 4(b) California Constitution Proposition 218 Procedures and Requirements**

Proposition 218, approved by the voters of California in November of 1996, adds a supplemental array of procedures and requirements to be carried out prior to levying a property-based assessment like the EHBID. These requirements are in addition to requirements imposed by State and local assessment enabling laws. These requirements were “chaptered” into law as Article XIID Section 4(b) of the California Constitution.

Since Article XIID provisions will affect all subsequent calculations to be made in the final assessment formula for the EHBID, these supplemental requirements will be taken into account. The key provisions of Article XIID along with a description of how the EHBID complies with each of these provisions are delineated below.

(Note: All section references below pertain to Article XIII of the California Constitution):

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

### **Finding 1. From Section 4(a): “Identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed”**

#### **Setting**

The EHBID is located northwest of Downtown Los Angeles in the community of East Hollywood along Vermont Avenue, Hollywood Boulevard and Sunset Boulevard. This dynamic business center is home to an abundance of renowned Los Angeles landmarks including Historic Barnsdall Art Park, Los Angeles City College, Children’s Hospital of Los Angeles, Hollywood Presbyterian Medical Center, Kaiser-Sunset Medical Center and the Braille Institute of Los Angeles. These notable landmarks are surrounded by an array of supporting retail, restaurant, service and medical offices. The EHBID is connected to many other key areas of Los Angeles via the Metro Redline Subway that traverses north/south through the EHBID Vermont Avenue corridor.

The boundaries of the EHBID have been determined based on the concentrated commercially zoned, service related properties in the heart of East Hollywood. The EHBID is centered (one parcel deep) along Vermont Avenue roughly between Hollywood Boulevard on the north and the Hollywood (101) Freeway on the south. The EHBID also extends west along Hollywood Boulevard from Vermont Avenue to Kenmore Avenue and east along Sunset Boulevard and Fountain Avenue from Vermont Avenue to Lyman Place/Rodney Drive on the east and west along Sunset Boulevard to just west of Edgemont Street.

The EHBID is generally bounded on all sides by either small neighborhood oriented commercial zoned parcels or residentially zoned parcels and uses which, according to State of California Streets and Highways Code Section 36632(c), are conclusively presumed to not benefit from EHBID funded activities and therefore cannot be assessed. The EHBID boundaries are set to exclude any parcels zoned solely for residential purposes. The EHBID boundaries are more specifically described as follows:

#### **Boundary Description**

Beginning at the southeast corner of the intersection of Hollywood Boulevard and Vermont Avenue, southeast along the south side of Hollywood Boulevard to the northeast corner of Assessor Parcel Number (APN) 5542-014-001. South along the eastern boundary of parcels fronting the east side of Vermont Avenue to the northwest corner of APN 5542-015-031. East along the northern boundary of parcels fronting the north side of Sunset Boulevard to Rodney Drive. South along the west side of Rodney Drive, across Sunset Boulevard. East along the south side of Sunset Boulevard to Lyman Place. South along the west side of Lyman Place to Fountain Avenue. West along the north side of Fountain Avenue to a point opposite the northeast corner of APN 5542-018-035. South across Fountain Avenue and continuing south along the eastern boundary of parcels fronting the east side of Vermont Avenue across La Mirada Avenue, Lexington Avenue, Vermont Place, Santa Monica Boulevard, Willow Brook Avenue, Lockwood Avenue, Burns Avenue, Normal Avenue, Monroe Street, Marathon Street, Melrose Avenue, and Clinton Street to the north side of US Highway 101.

Northwest along the north side of US Highway 101 across Vermont Avenue to the southwest corner of APN 5538-028-010. North along the western boundary of parcels fronting the west side of Vermont Avenue, across Clinton Street, Melrose Avenue, Monroe Street, Willow Brook Avenue, Santa Monica Boulevard, Lexington Avenue, and Fountain Avenue, to the southeast line of APN 5543-013-002. West along the southern boundary of parcels fronting the south side of Sunset Boulevard across New Hampshire Avenue, L Ron Hubbard Way, Catalina Street, and Edgemont

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

Street to the southwest corner of APN 5543-020-023. North along the western boundary of APN 5543-020-023 across Sunset Boulevard and continuing north along the western boundary and east along the northern boundary of APN 5543-007-025 to Edgemont Street. Northeast across Edgemont Street to the northwest corner of APN 5543-010-017 and continuing east along the northern boundary of said parcel. North along the western boundary of APN 5543-010-900, APN 5543-011-901, and APN 5543-009-902, then west along the southern boundary of APN 5543-009-021 and across Edgemont Street. South along the west side of Edgemont Street to the southern boundary of APN 5543-008-034. West along the southern boundary and north along the western boundary (eastern side of Kenmore Avenue) of said APN 5543-008-034 across Hollywood Boulevard to the northwest corner of APN 5589-038-052. East along the northern boundary of parcels fronting the north side of Hollywood Boulevard, across Edgemont Street and Berendo Street to New Hampshire Avenue. South along the west side of New Hampshire Avenue, across Hollywood Boulevard. Southeast along the south side of Hollywood Boulevard to the point of beginning.

It is noted that Assessor's Parcel Number 5589-028-901, at the northeast corner of the intersection of Hollywood Boulevard and New Hampshire Avenue (Los Feliz Elementary School) is not included in the EHBID and will not receive EHBID funded programs, services nor improvements.

### **EHBID Boundary Rationale**

**Northern Boundary:** The northern boundary of the EHBID was determined by zoning, land uses and the proximity of another Business Improvement District, the Los Feliz tenant-based Business Improvement District that extends along the north side of Hollywood Boulevard between the west side of Vermont Avenue and the east side of Hillhurst Avenue. While permitted by State Law, there is no need to overlap the EHBID with the Los Feliz BID and duplicate BID funded programs and services. The parcels north of the northern EHBID boundary west of New Hampshire Ave are zoned solely residential with residential uses while those south of the northern boundary are not zoned residential and are primarily commercial and institutional land uses. State of California Streets and Highways Code Section 36632(c) conclusively presumes that properties zoned solely residential do not benefit from the improvements and service funded through assessments, cannot be assessed and, thus, are not included in the EHBID. In order to ensure that parcels north of the northern boundary will not specially benefit from EHBID funded services and improvements, no EHBID services and improvements will be provided north of the northern boundary, only south of the northern boundary within the EHBID boundaries.

**Eastern Boundary:** The properties located to the east of the EHBID boundaries are a mix of residential zoning and uses as well as a limited number of commercial zoned parcels and uses that are outside of the Vermont Avenue/Sunset Boulevard/Hollywood Boulevard business corridors and marketing aim of the EHBID. As stated above, the State of California Streets and Highways Code Section 36632(c) conclusively presumes that properties zoned solely residential do not benefit from the improvements and service funded through assessments, cannot be assessed and, thus, are not included in the EHBID. In order to ensure that parcels east of the eastern boundary will not specially benefit from EHBID funded services and improvements, no EHBID services and improvements will be provided east of the eastern boundary, only west of the eastern boundary within the EHBID boundaries.

**Southern Boundary:** The southern boundary of the EHBID was determined by the presence of the Hollywood (101) Freeway, a logical southern terminus of the EHBID. In order to ensure that parcels

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

south of the southern boundary will not specially benefit from EHBID funded services and improvements, no EHBID services and improvements will be provided south of the southern boundary, only north of the southern boundary within the EHBID boundaries.

**Western Boundary:** The properties located to the west of the EHBID boundaries are a mix of residential zoning and uses as well as a limited number of commercial zoned parcels and uses that are outside of the Vermont Avenue/Sunset Boulevard/Hollywood Boulevard business corridors and marketing aim of the EHBID. As stated above, the State of California Streets and Highways Code Section 36632(c) conclusively presumes that properties zoned solely residential do not benefit from the improvements and service funded through assessments, cannot be assessed and, thus, are not included in the EHBID. In order to ensure that parcels west of the western boundary will not specially benefit from EHBID funded services and improvements, no EHBID services and improvements will be provided west of the western boundary, only east of the western boundary within the EHBID boundaries.

**Benefit Zones:** There are three benefit zones in the EHBID. The services provided in each Zone are commensurate with the proportionate special benefit conferred and assessment levied on each parcel within each Zone. Service levels in each Zone are set by a combination of factors such as budgetary constraints, pre-programmed frequencies, variable demands, seasonal needs, pedestrian levels, number of parcels, land uses and development types (i.e. sidewalk storefronts, setback with front parking, large medical facilities, schools, park facilities etc.). The benefit zones are based more on broad land uses and their need for supplemental EHBID provided services, programs and improvements than location within the EHBID.

**Zone 1** includes 96 parcels (73% of the EHBID parcels) and represents the concentration of smaller parcels and businesses along the Vermont Avenue and Sunset Boulevard corridors. Business activity and pedestrian traffic is highest along these frontages in the EHBID, and thus these parcels require the highest level of programmed and response EHBID services. As a result, Zone 1 parcels will receive 100% of their proportionate special benefit from Zone 1 EHBID funded levels of services and will be assessed at the highest rates for parcel land area and Vermont Avenue Street frontage as delineated in this Plan. These assessment rates and the resulting Zone 1 assessment revenue are reflected in the budget allocation of funds for Zone 1 and the corresponding proportionate special benefits conferred on Zone 1 parcels.

**Zone 2** includes 31 parcels (24% of the EHBID parcels) and includes all parcels northwest of the intersection of Sunset Boulevard and Vermont Avenue as well as the block bounded by Vermont Avenue and Lyman Place between Sunset Boulevard and Fountain Avenue. Zone 2 also includes the block bounded by Vermont Avenue and New Hampshire Avenue between Monroe Street and Melrose Avenue. Zone 2 parcels include the larger landmarks and medical facilities in the EHBID including historic Barnsdall Art Park, Hollywood Presbyterian Medical Center, Kaiser-Sunset Medical Center, Children’s Hospital of Los Angeles and the Braille Institute of Los Angeles. Zone 2 parcels are accessed primarily by automobile or transit with internal parking facilities. Zone 2 parcels and facilities provide certain levels of base perimeter services and do not require the same level of programmed and response services as Zone 1 parcels. As a result, Zone 2 parcels will receive 100% of their proportionate special benefit from Zone 2 EHBID funded levels of services and will be assessed at 50% of the Zone 1 rates for parcel land area and Vermont Avenue street frontage as delineated in this Plan. These rates and the resulting Zone 2 assessment revenue are reflected in the budget allocation of funds for Zone 2 and the corresponding proportionate special benefits conferred on Zone 2 parcels.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**Zone 3** includes 4 parcels (3% of the EHBID parcels) - and includes 2 large parcels along Vermont Avenue owned and occupied by Los Angeles City College (LACC) and 2 small parcels adjacent to LACC along the west side of Vermont Avenue owned by LA County Metropolitan Transit Authority (LACMTA). One of the LACMTA parcels is used as the ingress/egress for the underground Redline Subway and the second for placement of subway ventilation equipment. Both LACC and LACMTA provide much of their own perimeter streetscape, cleaning, sweeping and other services on their parcels within the EHBID. As a result, Zone 3 parcels will receive 100% of their proportionate special benefit from Zone 3 EHBID funded levels of services and will be assessed at 27% of the Zone 1 rates for parcel land area and Vermont Avenue street frontage as delineated in this Plan. These rates and the resulting Zone 3 assessment revenue are reflected in the budget allocation of funds for Zone 3 and the corresponding proportionate special benefits conferred on Zone 3 parcels.

A list of all parcels included in the proposed renewed EHBID is shown as Appendix 1, attached to this Report identified by their respective Los Angeles County assessor parcel number. The boundary of the proposed renewed EHBID and benefit zones are shown on the map of the proposed renewed EHBID attached as Appendix 2 to this Plan.

All identified assessed parcels within the above-described boundaries shall be assessed to fund supplemental special benefit programs, services and improvements as outlined in this Plan. All EHBID funded services, programs and improvements provided within the above described boundaries shall confer special benefit to identified assessed parcels inside the EHBID boundaries and none will be provided outside of the EHBID. Each assessed parcel within the EHBID will proportionately specially benefit from the EHBID funded programs and services (i.e. Improvement Projects, Streetscape Services, Marketing and Administration). These services, programs and improvements are intended to improve commerce, employment, rents and occupancy rates of individually assessed parcels and businesses on them within the EHBID. The EHBID confers special benefits on each and every individually assessed parcel by reducing litter, improving aesthetics and marketing goods and services available from assessed parcels and the businesses on them within the EHBID, all necessary in a competitive properly managed business district. All EHBID funded services programs and improvements are supplemental, above normal base level services provided by the City of Los Angeles and are only provided for the special benefit of assessed parcels within the boundaries of the proposed renewed EHBID.

The EHBID includes 131 parcels of which all are identified as assessable within three Benefit Zones and which are listed in the Assessment Roll included as Appendix 1. A Boundary Map showing the EHBID boundaries and Benefit Zones is included as Appendix 2.

**Finding 2. From Section 4(a): “Separate general benefits (if any) from the special benefits conferred on parcel(s). Only special benefits are assessable. “**

### **QUANTITATIVE BENEFIT ANALYSIS**

As stipulated in Article XIID Section 4(b) of the California Constitution, assessment district programs and activities confer a combination of general and special benefits to properties, but the only program benefits that can be assessed are those that provide special benefit to the assessed properties. For the purposes of this analysis, a “general benefit” is hereby defined as: “A benefit to properties in the area and

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

in the surrounding community or benefit to the public in general resulting from the improvement, activity, or service to be provided by the assessment levied”. “Special benefit” as defined by the California State Constitution means a distinct benefit over and above general benefits conferred on real property located in the district or to the public at large.

The property uses within the boundaries of the EHBID that will receive special benefits from EHBID funded programs and services are currently a mix of retail, restaurant, office, service, general commercial, medical facilities, schools and an historic municipal park. Services, programs and improvements provided and funded by the EHBID (i.e. Improvement Projects, Streetscape Services, Marketing and Administration) are primarily designed to provide special benefits to identified assessed parcels and the array of land uses within the boundaries of the EHBID as described in the Work Plan Details starting on page 16 of this Report.

The proposed renewed EHBID programs, improvements and services and Year 1 – 2022 budget allocation by Zone are shown in the Table below:

### **EHBID Year 1 (2022) Special Benefit Assessment Budget By Zone**

<b>BENEFIT ZONE</b>	<b>IMPROVEMENT PROJECTS</b>	<b>STREETSCAPE SERVICES</b>	<b>MARKETING</b>	<b>ADMINISTRATION</b>	<b>TOTAL</b>
%	37%	31%	11%	21%	100%
1	\$52,115	\$43,664	\$15,494	\$29,579	\$140,852
2	\$37,250	\$31,210	\$11,074	\$21,142	\$100,676
3	<u>\$10,525</u>	<u>\$8,818</u>	<u>\$3,129</u>	<u>\$5,974</u>	<u>\$28,446</u>
TOTAL	\$99,890	\$83,692	\$29,697	\$56,695	\$269,974

The special benefits conferred on assessed parcels within the EHBID are particular and distinct to each and every identified assessed parcel within the EHBID and are not provided to non-assessed parcels outside of the EHBID. These programs, services and improvements will only be provided to each individual assessed parcel within the EHBID boundaries and, in turn, confer proportionate “special benefits” to each assessed parcel.

In the case of the EHBID, the very nature of the purpose of this EHBID is to fund supplemental programs, services and improvements to assessed parcels within the EHBID boundaries above and beyond what is being currently funded either via normal tax supported methods or other funding sources. The City of Los Angeles does not provide these programs and services. All benefits derived from the assessments to be levied on assessed parcels within the EHBID are for services, programs and improvements directly benefiting each individual assessed parcel within the EHBID. No EHBID funded services, activities or programs will be provided outside of the EHBID boundaries.

While every attempt is made to provide EHBID services and programs to confer benefits only to those identified assessed parcels within the EHBID, the California State Constitution was amended via Proposition 218 to stipulate that general benefits exist, either by design or unintentional, in all assessment districts and that a portion of the program costs must be attributable to general benefits and assigned a value. General benefits cannot be funded by assessment revenues. General benefits might be conferred on parcels within the EHBID, or “spillover” onto parcels surrounding the EHBID, or to the public at large

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

who might be passing through the EHBID with no intention of transacting business within the EHBID or interest in the EHBID itself.

Empirical assessment engineering analysis throughout California has found that general benefits within a given business improvement district tend to range from 2-6% of the total costs. There are three methods that have been used by this Engineer for determining general and special benefit values within assessment districts:

- (1) The parcel by parcel allocation method
- (2) The program/activity line item allocation method, and
- (3) The composite district overlay determinant method.

A majority of PBIDs in California for which this Assessment Engineer has provided assessment engineering services since the enactment of Proposition 218, (Article XIID Section 4(b) of the California Constitution) have used Method #3, the composite district overlay determinant method which will be used for the EHBID. This method of computing the value of general benefit involves a composite of three distinct types of general benefit – general benefit to assessed parcels within the EHBID, general benefit to the public at large within the EHBID and general benefit to parcels outside the EHBID.

### General Benefit – Assessed Parcels within EHBID

EHBID funded programs are narrowly designed and carefully implemented to specially benefit the assessed EHBID parcels and are only provided for the special benefit to each and every assessed parcel within the EHBID. It is the opinion of this Engineer, based on over 30 years of professional assessment engineering experience, that nearly 100% of benefits conferred on the 131 assessed parcels within the EHBID are distinct and special but in the case of the EHBID, it is projected that there are 0.25% general benefits conferred on these assessed parcels. This high ratio of special benefits to general benefits is because the EHBID funded programs and services are specially geared to the unique needs of each assessed parcel within the EHBID and are directed specially only to these assessed parcels within the EHBID. This concept is further reinforced by the proportionality of special benefits conferred on each assessed parcel within the EHBID as determined by the special benefit assessment formula as it is applied to the unique and varying property characteristics of each assessed parcel. The computed 0.25% general benefit value on assessed parcels within the EHBID equates to \$675 or  $(.25\% \times \$269,974)$ .

### General Benefit – Public At Large

While the EHBID funded programs are narrowly designed and carefully implemented to specially benefit the assessed EHBID properties and are only provided for the special benefit to each and every assessed parcel within the EHBID, these EHBID funded programs may also provide an incidental general benefit to the public at large within the EHBID. Assessment Engineering experience in California has found that generally well over 95% of people moving about within PBID boundaries are engaged in business related to assessed parcels and businesses contained on them within the PBID, while the public at large “just passing through” is typically much less than 5%. Based on this experience curve and the focused nature of the proposed EHBID funded programs and over 30 years of assessment engineering experience, it is the opinion of this Engineer that general benefit factors for each of the EHBID funded special benefit program element costs that might provide an immediate general benefit to the public at large are as shown

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

in the chart below. These factors are applied to each program element costs in order to compute the dollar and percent value of general benefits to the public at large. The total dollar value of this general benefit type equates to \$3,184 as delineated in the following Table:

**Year 1 – 2022 EHBID GENERAL BENEFITS TO “PUBLIC AT LARGE”**

	<b>A</b>	<b>B</b>	<b>C</b>	<b>E</b>
<b>Program Element</b>	<b>Dollar Allocation</b>	<b>General Benefit Percent</b>	<b>General Benefit Factor</b>	<b>General Benefit Value (A x C)</b>
IMPROVEMENT PROJECTS	\$99,890	1.50%	0.0150	\$1,498
STREETSCAPE SERVICES	\$83,692	1.50%	0.0150	\$1,255
MARKETING	\$29,697	0.50%	0.0050	\$148
ADMINISTRATION	<u>\$56,695</u>	0.50%	0.0050	<u>\$283</u>
<b>TOTAL</b>	<b>\$269,974</b>			<b>\$3,184</b>

Spillover General Benefits to Parcels Outside of EHBID

While EHBID programs and services will not be provided directly to parcels outside the EHBID boundaries, it is reasonable to conclude that EHBID services may confer an indirect general benefit on parcels immediately adjacent to the EHBID boundaries. An inventory of the EHBID boundaries finds that the EHBID is surrounded by 216 parcels, of which 58 are commercial uses and 158 are residential, non-profit or public uses adjacent to or across a street or alley from the proposed renewed EHBID. There are no non-identified (i.e. not assessed) exempt parcels within the proposed renewed EHBID.

The 216 parcels outside the EHBID boundaries adjacent to or across streets or alleys from assessed parcels within the EHBID can reasonably be assumed to receive some indirect general benefit as a result of EHBID funded programs, services and improvements. Based on over 30 years of assessment engineering experience, it is the opinion of this Engineer that a benefit factor of 1.0 be attributed to the 131 identified assessed parcels within the EHBID; a benefit factor of 0.05 be attributed to general benefits conferred on the 58 commercial parcels adjacent to or across a street or alley from the proposed renewed EHBID; and a benefit factor of 0.005 be attributed to general benefits conferred on the 158 residential, non-profit and public parcels adjacent to or across a street or alley from the proposed renewed EHBID. The cumulative dollar value of this general benefit type equates to \$7,605 (\$5,977 + 1,628) as delineated in the Table below.

**YEAR 1 – 2022 EHBID “Spillover” General Benefits**

<b>Parcel Type</b>	<b>Quantity</b>	<b>Benefit Factor</b>	<b>Benefit Units</b>	<b>Benefit Percent</b>	<b>Benefit Value</b>
Identified Assessed Parcels in District	131	1.000	131.00	97.2604%	\$269,974
Commercial Parcels Outside District	58	0.050	2.90	2.1531%	\$5,977
Other Parcels Outside District	158	0.005	0.79	<u>0.5865%</u>	<u>\$1,628</u>
<b>TOTAL</b>			134.69	100.00%	<b>\$277,579</b>

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

### Composite General Benefit

Based on the general benefit values delineated in the three sections above, the total value of general benefits conferred on assessed parcels within the EHBID, the public at large and parcels outside the EHBID equates to \$11,464 (\$675 + \$3,184 + \$7,605) or 4.0734%. This leaves a value of 95.9266% assigned to special benefit related costs. The general benefit value of \$11,464 when added to the special benefit value of \$269,974 (Year 1 –2022 assessments) equates to a total Year 1 – 2022 program benefit value of \$281,438. Remaining costs that are attributed to general benefits, will need to be derived from other sources.

The program special benefit related cost allocations of the EHBID assessment revenues for Year 1 (2022) are shown in the Table on page 20 of this Report. The projected program special benefit related cost allocations of the EHBID assessment revenues for the 10-year EHBID term, assuming a 6% maximum annual assessment rate increase, are shown in the Table on pages 20-21 of this Report.

A breakdown of projected special and general benefits for each year of the 10-year renewal term, assuming a 6% maximum annual assessment rate increase is shown in the following Table:

### **10-Year Special + General Benefits** (Assumes 6% max rate increase per year)

YR	ZONE	PROGRAM CATEGORY	SPECIAL BENEFITS	GENERAL BENEFITS	TOTAL BENEFITS	% OF TOTAL
YR 1 - 2022	1	IMPROVEMENT PROJECTS	\$52,115	\$2,213	\$54,328	37%

If the EHBID is not renewed again at the end of the proposed 10-Year renewal term, any remaining Streetscape Services reserve funds being held at that time will be expended on other physical amenities as described on page 18 of this Report. As is the case with any unexpended/unencumbered funds remaining at the end of a renewal term, if the EHBID is not renewed again, such funds would be returned to EHBID property owners in accordance with City policy and State PBID Law.

### **EHBID WORK PLAN**

#### **Overview**

The Programs and activities to be funded by the EHBID include Improvement Projects, Streetscape Services, Marketing and Administration. The property uses within the boundaries of the EHBID that will receive special benefits from EHBID funded programs, services and improvements are currently a unique mix of retail, restaurant, office, service, general commercial, medical facilities, schools and a historic municipal park. Services, programs and improvements provided and funded by the EHBID are primarily designed to provide special benefits as described below to identified assessed parcels within the boundaries of the EHBID. The varying programmed service levels in each benefit zone are delineated within each work plan element description.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

These special benefits are particular and distinct to each and every identified assessed parcel within the EHBID and are not provided to non-assessed parcels outside of the EHBID. These programs, services and improvements will only be provided to each individual assessed parcel within the EHBID boundaries and, in turn, confer proportionate "special benefits" to each assessed parcel.

The very nature of the purpose of the EHBID is to fund supplemental programs, services and improvements to assessed parcels within the EHBID boundaries above and beyond the base line services provided by the City of Los Angeles. The City of Los Angeles does not provide these supplemental programs and services. All benefits derived from the assessments to be levied on assessed parcels within the EHBID are for services, programs and improvements directly benefiting each individual assessed parcel within the EHBID. No EHBID funded services, activities or programs will be provided outside of the EHBID boundaries.

The program special benefit cost allocations of the EHBID assessment revenues for Year 1 (2022) are shown in the Table on page 20 of this Report. The projected program special benefit cost allocations of the EHBID assessment revenues for the 10-year EHBID term, assuming a 6% maximum annual assessment rate increase, are shown in the Table on pages 20-21 of this Report.

### **WORK PLAN DETAILS**

The services to be provided by the EHBID are all designed to contribute to the cohesive commercial and institutional fabric and to ensure economic success and vitality of the EHBID. The assessed parcels in the EHBID will specially benefit from the EHBID programs in the form of increasing commerce and improving economic success and vitality through meeting the EHBID Goals: to improve sanitation, beautification, landscaping, and to attract and retain businesses and services, generate more pedestrian and visitor traffic and ultimately to increase commerce and improve the economic viability of each individual assessed parcel.

The following programs, services and improvements are proposed by the EHBID to specially benefit each and every individually assessed parcel within the EHBID boundaries. EHBID services, programs and improvements will not be provided to parcels outside the EHBID boundary. Assessment funds generated in each benefit zone shall only be used to provide services which specially benefit individual assessed parcels within that benefit zone.

### **Improvement Projects**

\$104,032 (Special + General Benefits)	37%
--	-----

EHBID funded Improvement Projects will include in the proposed renewal term: additional tree planting and decorative tree wells; painting of streetlight poles; and, other amenity improvements such as benches, trash receptacles, landscaping and other street furniture and streetscape improvements as approved by the Owners' Association.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

Detailed annual budgets will be prepared by the Owners’ Association Board and included in an Annual Plan for the City Council’s review and approval.

The Improvement Projects component is designed to specially benefit each identified and assessed parcel within the EHBID by improving the aesthetic appeal of, each and every assessed parcel in the EHBID as an attractive and inviting place to work, visit, attend class, recreate, transact business, shop and dine. The Improvement Projects component is designed to attract more commercial customers and clients, visitors, employees, tenants and investors which are intended to increase business volumes, sales transactions, commercial occupancies and commercial rental income. The Improvement Projects component will be provided only within the EHBID boundaries and for the special benefit of identified and assessed parcels within the EHBID.

### **Streetscape Services**

\$87,245 (Special + General Benefits)                      31%

The Streetscape Services component activities includes day porters to pick up litter, sidewalks will be kept clean and benches will be wiped down and kept graffiti free. Landscaped medians will be kept clear of trash and weeds on a regular basis. Irrigation systems will be continually checked and serviced. Landscaping will be kept trimmed and shaped to maintain pedestrian clearance. Newly planted trees will be watered on a regular basis until mature enough to be self-sustaining. Sidewalk and gutter areas will be pressure washed on a regular basis.

Streetscape related service levels will be the highest in Zone 1 and about 50% less in Zone 2. Zone 3 will have nominal service levels at about 23% of Zone 1 levels since similar services are already provided by the individual large parcels in Zone 3.

Each Streetscape Services element and level of service by Zone is more fully described as follows:

- Clean-Up Personnel: Full-time personnel will collect and remove litter from sidewalks on a regular basis. This will include gutter and storm drain cleaning, and removal of illegally dumped bulky items. The programmed and response level of service is highest in Zone 1, less in Zone 2 and minimal in Zone 3.
- Median Landscape Maintenance: Median service will include weed removal and trimming to provide a welcoming, attractive business environment.
- Trash Receptacle Cleaning: Trash liners will be replaced on a regular basis from receptacles located within the boundaries of the District.
- Tree Watering and Trimming: Trees will be watered and trimmed within the boundaries of the District to ensure that businesses are visible and the business environment is free from trash and debris caused by falling limbs and leaves. Tree trimming in Zone 1 is projected more than once a year, only once a year in Zone 2 and less than once a year in Zone 3.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

- Sidewalk Cleaning: Sidewalks will be pressure washed on a schedule set by the Owners' Association. The projected schedule is 3 times per year in Zone 1, 2 times per year in Zone 2 and once a year in Zone 3. There will also be ongoing spot removal, including graffiti and sticker removal, within the boundaries of the District as needed.

The Streetscape Services component is designed to specially benefit each identified and assessed parcel within the EHBID by professionally managing the appearance, and improve the aesthetic appeal of, each and every assessed parcel in the EHBID as an attractive and inviting place to work, visit, attend class, recreate, transact business, shop and dine. Streetscape Services is designed to attract more commercial customers and clients, employees, tenants and investors which are intended to increase business volumes, sales transactions, commercial occupancies, commercial rental income and return on investments. A poorly maintained or unimproved environment deters commerce and may fail to attract patrons and visitors, and reduce commercial rents and commercial occupancies. Streetscape Services will be provided only within the EHBID boundaries and for the special benefit of identified and assessed parcels within the EHBID.

### **Marketing**

\$30,958 (Special + General Benefits) 11%

Marketing will include newsletters, website and social media management, development and distribution of promotional materials (such as event flyers, business coupon books, business directories/maps), special events, media advertising and other programs that will promote the array of goods and services available within the EHBID. The Marketing program helps meet the goals of business attraction and retention and increased commerce.

The marketing program is designed with the intent to increase the public’s awareness of the EHBID as a single destination in order to attract consumers to the array of attractions, events, and services which are intended to increase commerce for each assessed parcel in the EHBID. For example, the EHBID will publish a newsletter to keep property owners informed of upcoming events and services. Marketing efforts will be designed to improve the commercial core by implementing programs to attract pedestrians, increase lease rates, commercial rentals, parking revenues, retail customers and restaurant patrons for the assessed parcels in the EHBID. The Owners’ Association will continue to use its website to promote the assessed EHBID parcels in an effort to increase awareness of the EHBID as a destination for consumers and tenants and increase occupancy and commerce on the assessed parcels. The website is designed to provide visitors information about the EHBID in order to attract these visitors and more business from out of the area, to increase commerce and improve the economic success of assessed parcels.

For the array of land uses primarily within the EHBID (i.e. retail, restaurant, office, service, general commercial, medical facilities, schools and a historic municipal park.) this work plan component is specifically designed to attract more customers, employees, tenants and investors. Special benefit will be conferred on each and every parcel assessed for these programs in the EHBID as a result of marketing these assessed parcels and the goods and services and spaces available on these assessed parcels. This in turn, is intended to increase business volumes, sales transactions, commercial occupancies and commercial rental income. The Marketing work plan component will only be provided to, and for the direct and special benefit of, each identified parcel assessed for these programs and services within the EHBID.

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

### **Administration**

\$59,103 (Special + General Benefits)      21%

Administration includes the cost of personnel to oversee implementation of the various programs, services and improvement projects delineated in this Plan during the EHBID’s 10-year term. This element also includes oversight of the Owners’ Association’s compliance with the terms of its contract with the City. Program Management also includes accounting/bookkeeping fees and Directors & Officers and General Liability insurance.

Administration also includes the costs associated with operating a successful and professional EHBID such as legal services, printing, postage, supplies, production of the Annual Planning Report and Budget and quarterly reports. It also includes projected contingency costs such as delinquent assessments, unforeseen expenses and the costs associated with EHBID renewal, as well as City and/or County fees associated with their oversight of the EHBID.

This component is key to the proper expenditure of EHBID assessment funds and the administration of EHBID programs and activities that are intended to provide consistent and effective services for the appeal of assessed properties within the EHBID which may in turn, increase business volumes, commercial occupancies and rental income and return on investments for each parcel and business within the EHBID.

In summary, all EHBID funded services, programs and improvements described above confer special benefits to identified assessed parcels inside the EHBID boundaries and none will be provided outside of the EHBID. Each assessed parcel within the EHBID will proportionately specially benefit from the Improvement Projects, Streetscape Services, Marketing and Administration. These services, programs and improvements are intended to improve commerce, employment, rents and occupancy rates of assessed parcels within the EHBID by reducing litter, maintaining landscaping and physical improvements and professionally marketing goods, services and spaces available within the EHBID, all necessary in a competitive properly managed contemporary business district. All EHBID funded services programs and improvements are considered supplemental, above normal base level services provided by the City of Los Angeles and are only provided for the special benefit of each and every assessed parcel within the boundaries of the EHBID.

### **WORK PLAN BUDGET**

Each identified assessed parcel within the EHBID will be assessed the full amount of the proportionate special benefit conferred upon it based on the level of EHBID funded services provided within each benefit zone. The projected EHBID program special benefit (assessments) allocation budget for Year 1 (2022) is shown in the following Table:

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**EHBID Year 1 (2022) Special Benefit Assessment Budget By Zone**

<b>BENEFIT ZONE</b>	<b>IMPROVEMENT PROJECTS</b>	<b>STREETSCAPE SERVICES</b>	<b>MARKETING</b>	<b>ADMINISTRATION</b>	<b>TOTAL</b>
%	37%	31%	11%	21%	100%
1	\$52,115	\$43,664	\$15,494	\$29,579	\$140,852
2	\$37,250	\$31,210	\$11,074	\$21,142	\$100,676
3	<u>\$10,525</u>	<u>\$8,818</u>	<u>\$3,129</u>	<u>\$5,974</u>	<u>\$28,446</u>
TOTAL	\$99,890	\$83,692	\$29,697	\$56,695	\$269,974

In order to carry out the EHBID programs outlined in the previous section, a Year 1-2022 assessment budget of \$269,974 is projected. Since the EHBID is planned for a 10-year term, projected program costs for future years (Years 2-10) are set at the inception of the EHBID. While future inflationary and other program cost increases are unknown at this point, a built in maximum increase of 6% per annum, commensurate to special benefits received by each assessed parcel, is incorporated into the projected program costs and assessment rates for the 10-year EHBID term.

It is noted that an estimated 10% (or \$25,880) of EHBID’s prior year assessment revenue may be carried over into Year 1-2022 of the renewal term in accordance with City policy to pay for EHBID Streetscape Services. Thereafter, funding carryovers, if any, may be reapportioned the following year for related programs, services and improvements in accordance with City policy. Detailed annual budgets will be prepared by the Owners’ Association Board and included in the Annual Planning Report for the City Council’s review and approval.

It is recognized that market conditions may cause the cost of providing goods and services to fluctuate from year to year during the 10-year term of the proposed renewed EHBID. Accordingly, the Owners’ Association shall have the ability to reallocate up to 10% of any budget line item, within the budget categories, based on such cost fluctuations subject to the review and approval by the Owners’ Association Board. Such reallocation will be included in the Annual Planning Report for the approval by the Los Angeles City Council pursuant to the Streets and Highways Code Section 36650. Any accrued interest or delinquent payments may be expended in any budget category in accordance with City policy.

A 10-year projected EHBID special benefit budget is shown in the following Table:

**YEAR 1-10 PROJECTED EHBID ASSESSMENT BUDGET SUMMARY (Special Benefits)**  
 (Assumes 6% max rate increase per year)

<b>YEAR</b>	<b>BENEFIT ZONE</b>	<b>IMPROVEMENT PROJECTS</b>	<b>STREETSCAPE SERVICES</b>	<b>MARKETING</b>	<b>ADMINISTRATION</b>	<b>TOTAL</b>

The EHBID assessments may increase for each individual parcel each year during the 10-year effective operating period, but not to exceed 6% per year, commensurate to special benefits received by each assessed parcel, and must be approved by the Owners’ Association Board of Directors, included in the Annual Planning Report and adopted by the City of Los Angeles City Council. Any accrued interest and

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

delinquent payments will be expended within the budgeted categories. The Owners’ Association Board of the Directors (“Property Owners’ Association of the EHBID) shall determine the percentage increase, if any, to the annual assessment, not to exceed 6% per year. The Owners’ Association Executive Director shall communicate the annual increase to the City each year in which the EHBID operates at a time determined in the Administration Contract held between the Owners’ Association and the City of Los Angeles. No bonds are to be issued in conjunction with the proposed renewed EHBID.

Pursuant to Section 36671 of the Streets and Highways Code, any funds remaining after the 10th year of operation will be rolled over into the renewal budget or returned to stakeholders in accordance with City policy. EHBID assessment funds may be used to pay for costs related to the following EHBID renewal term. If the EHBID is not renewed or terminated for any reason, unencumbered/unexpended funds will be returned to the property owners in accordance with City policy.

**Finding 3. From Section 4(a): “(Determine) the proportionate special benefit derived by each parcel in relationship to the entirety of the.....cost of public improvement(s) or the maintenance and operation expenses.....or the cost of the property related service being provided.**

Each identified assessed parcel within the EHBID will be assessed based on property characteristics unique only to that parcel. Based on the specific needs and corresponding nature of the program activities to be funded by the proposed renewed EHBID (i.e. Improvement Projects, Streetscape Services, Marketing and Administration), it is the opinion of this Assessment Engineer that the assessment factors on which to base assessment rates relate directly to the proportionate amount of land area and prime (Vermont Avenue) street frontage of each parcel within three benefit zones.

The calculated assessment rates are applied to the actual measured parameters of each parcel and thereby are proportional to each and every other identified assessed parcel within the EHBID as a whole and the Benefit Zone in which it is located. Larger parcels with greater Vermont Avenue street frontage and/or ones located in Zone 1 are projected to impact the demand for services and programs to a greater extent than smaller land areas/Vermont Avenue street frontages and/or located in Zone 2 or 3 and thus, are assigned a greater proportionate degree of assessment program and service costs. The proportionality is further achieved by setting targeted formula component weights for the respective parcel by parcel identified property attributes.

The proportionate special benefit cost for each parcel has been calculated based on proportionate formula components and is listed as an attachment to the Management EHBID Plan and this Report. The individual percentages (i.e. proportionate relationship to the total special benefit related program and activity costs) is computed by dividing the individual parcel assessment by the total special benefit program related costs.

**Finding 4. From Section 4(a): “No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”**

Not only are the proposed program costs reasonable due to the benefit of group purchasing and contracting which would be possible through the proposed renewed EHBID, they are also considerably less than other

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

options considered by the EHBID Renewal Committee. The actual assessment rates for each parcel within the EHBID directly relate to the level of service and, in turn, special benefit to be conferred on each parcel based on the respective land area and prime (Vermont Avenue) street frontage of each parcel within three benefit zones.

**Finding 5. From Section 4(a): “Parcels.....that are owned or used by any (public) agency shall not be exempt from assessment.....”**

The State Constitution - Article 13D (Proposition 218) states that “parcels within a District that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly-owned parcels in fact receive no special benefit.”

There are 18 publicly owned parcels within the EHBID boundaries. Ten are owned by the Los Angeles County Metropolitan Transit Authority (MTA), 6 by the City of Los Angeles (Barnsdall Art Park, and 2 by the Los Angeles City Community College District (Los Angeles City College). Each of the 18 publicly owned parcels are identified as assessable by this Assessment Engineer and for which special benefit services will be provided. Of these 18 publicly owned parcels, 7 are located in Benefit Zone 1, 7 in Benefit Zone 2 and 4 in Benefit Zone 3.

In the opinion of this Assessment Engineer, all 18 publicly owned parcels are identified as assessable in that they will each, at minimum, directly receive proportionate special benefit from EHBID funded services, programs and improvements, including Improvement Projects, Streetscape Services, Marketing and Administration. All 18 publicly owned parcels/facilities will specially benefit from EHBID funded projects and services from enhanced and cleaner facility entrances and street frontages as well as marketing of public facilities. EHBID funded projects and services are designed to improve the appearance, cleanliness and usability of each publicly owned assessed parcel and facility within the EHBID.. All 18 publicly owned parcels, regardless of the Benefit Zone in which they are located, will be assessed for their respective amount of parcel land area and Vermont Avenue street frontage, each that proportionately relates to the level of special benefit conferred on each publicly owned parcel from EHBID funded services.

In the opinion of this Assessment Engineer, there is no clear and convincing evidence that these 18 publicly owned parcels will not proportionately specially benefit from EHBID services, programs and improvements as delineated above; therefore, each publicly owned parcel will be assessed at the full Benefit Zone rates with assessments to be based on the land area and Vermont Avenue street frontage of each parcel as applicable in each Benefit Zone.

The Table below lists all publicly owned parcels within the proposed EHBID and their Year 1 (2022) assessment amounts:

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**Finding 6. From Section 4(b): “All assessments must be supported by a detailed engineer’s report prepared by a registered professional engineer certified by the State of California”.**

This report serves as the “detailed engineer’s report” to support the benefit property assessments proposed to be levied within the proposed renewed EHBID.

**Finding 7. From Section 4(c): “The amount of the proposed assessment for each parcel shall be calculated (along with) the total amount thereof chargeable to the entire district, the duration of such payments, the reason for such assessment and the basis upon which the amount of the proposed assessment was calculated.”**

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

The individual and total parcel assessments attributable to special property benefits are shown in Appendix 1 to the Management District Plan and this Report. The proposed renewed EHBID and resultant assessment levies will continue for 10-years and may be renewed again at that time. The reasons (purposes) for the proposed assessments are outlined in Finding 2 above as well as in the Management District Plan. The calculation basis of the proposed assessment is attributed to land area and prime (Vermont Avenue) street frontage of each EHBID assessed parcel within 3 benefit zones.

### Assessment Formula Methodology

#### Step 1. Select “Basic Benefit Unit(s)”

##### Background - Assessment Formula Development

The method used to determine special benefits derived by each identified assessed property within a PBID begins with the selection of a suitable and tangible basic benefit unit. For property related services, such as those proposed in the EHBID, the benefit unit may be measured in linear feet of street frontage or parcel size in square feet or building size in square feet or any combination of these factors. Factor quantities for each parcel are then measured or otherwise ascertained. From these figures, the amount of benefit units to be assigned to each property can be calculated. Special circumstances such as unique geography, land uses, development constraints etc. are carefully reviewed relative to specific programs and improvements to be funded by the PBID in order to determine any levels of different benefit that may apply on a parcel-by-parcel or categorical basis.

Based on the factors described above such as geography and nature of programs and activities proposed, an assessment formula is developed which is derived from a singular or composite basic benefit unit factor or factors. Within the assessment formula, different factors may be assigned different “weights” or percentage of values based on their relationship to programs/services to be funded.

Next, all program and activity costs, including incidental costs, administration and ancillary program costs, are estimated. It is noted, as stipulated in Article XIID Section 4(b) of the California Constitution, and now required of all property-based assessment districts, indirect or general benefit related costs may not be incorporated into the assessment formula and levied on the district properties; only direct or “special” benefits related costs may be used. Indirect or general benefits, if any, must be identified and, if quantifiable, calculated and factored out of the assessment cost basis to produce a “net” cost figure. In addition, Article XIID Section 4(b) of the California Constitution also no longer automatically exempts publicly owned property from being assessed unless the respective public agency can provide clear and convincing evidence that their property does not specially benefit from the programs and services to be funded by the proposed special assessments. If special benefit is determined to be conferred upon such properties, they must be assessed in proportion to special benefits conferred in a manner similar to privately owned property assessments. (See page 23 of this Report for discussion regarding publicly owned parcels within the EHBID).

From the estimated net program costs, the value of a basic benefit unit or “basic net unit cost” can be computed by dividing the total amount of estimated net program costs by the total number of benefit units. The amount of assessment for each parcel can be computed at this time by multiplying the Net Unit Cost times the number of Basic Benefit Units per parcel. This is known as “spreading the assessment” or the “assessment spread” in that all costs are allocated proportionally or “spread” amongst all benefitting

## EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

properties within the PBID.

The method and basis of spreading program costs varies from one PBID to another based on local geographic conditions, types of programs and activities proposed, and size and development complexity of the district. PBIDs may require secondary benefit zones to be identified to allow for a tiered assessment formula for variable or “stepped-down” benefits derived.

### EHBID Assessment Formula

Based on the specific needs and corresponding nature of the program activities to be funded by the proposed renewed EHBID (i.e. Improvement Projects, Streetscape Services, Marketing and Administration) it is the opinion of this Assessment Engineer that the assessment factors on which to base assessment rates relate directly to the proportionate amount of land area and Vermont Avenue street frontage of each parcel within three benefit zones..

The “Basic Benefit Units” will be expressed as a function of parcel land square footage (Benefit Unit “A”) and Vermont Avenue street frontage (Benefit Unit “B”) within three benefit zones. Based on the shape of the proposed renewed EHBID, as well as the nature of the EHBID program elements, it is determined that all identified assessed properties will gain a direct and proportionate degree of special benefit based on the respective amount of parcel land area and Vermont Avenue street frontage of each parcel within three benefit zones.

Parcel land area and primary street frontage (i.e. Vermont Avenue) quantities are a proven method of fairly and equitably spreading special benefit costs to the beneficiaries of EHBID funded services, programs and improvements. These factors directly relate to the degree of special benefit each assessed parcel will receive from EHBID funded activities within each benefit zone.

In the opinion of this Assessment Engineer, the targeted weight of Zone 1 revenue to match the projected costs of Zone 1 services, should generate approximately 50% of the total EHBID revenue (52.1723 % when adjusted for precise parcel measurements and program costs and service levels).

In the opinion of this Assessment Engineer, the targeted weight of Zone 2 revenue to match the projected costs of Zone 2 services, should generate approximately 40% of the total EHBID revenue (37.291 % when adjusted for precise parcel measurements and program costs and service levels).

In the opinion of this Assessment Engineer, the targeted weight of Zone 3 revenue to match the projected costs of Zone 3 services, should generate approximately 10% of the total EHBID revenue (10.5367 % when adjusted for precise parcel measurements and program costs and service levels).

Land area is a direct measure of the current and future development capacity of each parcel and its corresponding impact or draw on EHBID funded activities. In the opinion of this Assessment Engineer, the targeted weight of this factor, land area, should generate about 99.7% of the total EHBID.

Prime street frontage (i.e. Vermont Avenue) is a direct measure of each parcel’s corresponding impact or draw on EHBID funded activities. Due to the higher demand for services along Vermont Avenue frontages, only these frontages will be directly assessed, other frontage assessments are incorporated in the parcel land area assessment rates. In the opinion of this Assessment Engineer, the targeted weight of this factor,

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

prime street frontage (Vermont Avenue), should generate about 0.3% of the total EHBID.

Taking into account all identified specially benefiting parcels within the EHBID and their respective assessable benefit units, the rates, cumulative quantities and assessment revenues by factor and zone are shown in the following Tables:

**Year 1 – 2022 - Assessable Benefit Units**

<b>BENEFIT ZONE</b>	<b>LAND AREA (SF)</b>	<b>VERMONT STREET FRONTAGE (LF)</b>	<b># OF PARCELS</b>	<b># OF ASSESSABLE PARCELS</b>

The number of Benefit Units for each identified benefiting parcel within the proposed renewed EHBID was computed from data extracted from County Assessor records and maps. These data sources delineate current land uses, property areas and dimensions of record for each tax parcel. While it is understood that this data does not represent legal field survey measurements or detailed title search of recorded land subdivision maps or building records, it does provide an acceptable basis for the purpose of calculating property-based assessments. All respective property data being used for assessment computations will be provided to each property owner in the EHBID for their review. If a property owner believes there is an error on a parcel’s assessed footages, the EHBID may confirm the data with the LA County Assessor’s office. If EHBID data matches Assessor’s data, the property owner may opt to work with the Assessor’s office to correct the data so that the EHBID assessment may be corrected.

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**Assessment Formula**

In the opinion of this Assessment Engineer the assessment formula for the proposed renewed EHBID is as follows:

$$\text{Assessment} = \text{Land Area (Unit A) Sq Ft} \times \text{Unit A Zone Rate, plus} \\ \text{Vermont Ave Street Frontage (Unit B) Linear Ft} \times \text{Unit B Zone Rate}$$

**YEAR 1 –2022 Assessment Rates**

<b>BENEFIT ZONE</b>	<b>LAND AREA ASSMT RATE (\$/SQ FT)</b>	<b>VERMONT STREET FRONTAGE ASSMT RATE (\$/LF)</b>
1	\$0.079694	\$0.074587
2	\$0.039847	\$0.037295
3	\$0.021517	\$0.020136

***Changes to Parcel Size***

Any changes in parcel size as a result of land adjustments including but not limited to lot splits, consolidations, subdivisions, street dedications, right of way setbacks shall have their assessment adjusted upon final City approval of such parcel adjustments.

***Other Future Development***

Other than future maximum rates and the assessment methodology delineated in this Report, per State Law (Government Code Section 53750), future assessments may increase for any given parcel if such an increase is attributable to events other than an increased rate or revised methodology, such as a change in the density, intensity, or nature of the use of land. Any change in assessment formula methodology or rates other than as stipulated in this Plan would require a new Proposition 218 ballot procedure in order to approve any such changes.

The complete Year 1 – 2022 assessment roll of all parcels to be assessed by the EHBID is included in this Plan as Appendix I.

**Assessment Formula Unit Rates**

Using figures from the Assessable Benefit Units Table and the Projected Assessment Revenue Table on page 27 of this Plan, the assessment rates and weighted multipliers for each factor and zone are calculated as follows:

ZONE 1

Land Area Rate (Unit 1-A)

$$(\$269,973.63 \times 51.931796\%) / 1,759,256 \text{ units} = \$0.079694 / \text{sq ft land area}$$

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

Vermont Street Frontage Rate (Unit 1-B)

$(\$269,973.63 \times 0.240524\%) / 8,706 \text{ units} = \$0.074587/\text{sq ft land area}$

ZONE 2

Land Area Rate (Unit 2-A)

$(\$269,973.63 \times 37.254873\%) / 2,524,113 \text{ units} = \$0.039847/\text{sq ft land area}$

Vermont Street Frontage Rate (Unit 1-B)

$(\$269,973.63 \times 0.036152\%) / 2,617 \text{ units} = \$0.037295/\text{sq ft land area}$

ZONE 3

Land Area Rate (Unit 3-A)

$(\$269,973.63 \times 10.525088\%) / 1,320,582 \text{ units} = \$0.021517/\text{sq ft land area}$

Vermont Street Frontage Rate (Unit 1-B)

$(\$269,973.63 \times 0.011568\%) / 1,551 \text{ units} = \$0.020136/\text{sq ft land area}$

Since the EHBID is planned for a six-year term, maximum assessment rates for future years (Years 2-10) must be set at the inception of the EHBID. While future inflationary and other program cost increases are unknown at this point, a built in maximum increase of 6% per annum is incorporated into the projected program costs and, in turn, the resultant assessment rates for the ten year term of the EHBID. These figures are shown in the table below. Assessment rates may not exceed those indicated below.

In addition, any annual budget surplus or deficit will be incorporated into the subsequent year’s EHBID budget in accordance with City policy. Within the constraints of the annual adjustment, annual assessments will be set to account for surpluses or deficits carried forward.

**EHBID – 10 Year Maximum Assessment Rates

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

**SAMPLE ASSESSMENT CALCULATIONS:**

**Sample - Zone 1:**

A 15,000 sq ft lot with 100 feet of Vermont street frontage

Land	= 15,000 SF x 7.9694¢/SF	= \$1,195.41
Frontage	= 100 LF x 7.4587¢/LF	= \$ 7.46
TOTAL YEAR 1 ASSESSMENT		= <u>\$1,202.87</u>

**Sample - Zone 2:**

A 15,000 sq ft lot with 100 feet of Vermont street frontage

Land	= 15,000 SF x 3.9847¢/SF	= \$ 597.70
Frontage	= 100 LF x 3.7295¢/LF	= \$ 3.73
TOTAL YEAR 1 ASSESSMENT		= <u>\$ 601.43</u>

**Sample - Zone 3:**

A 15,000 sq ft lot with 100 feet of Vermont street frontage

Land	= 15,000 SF x 2.1517¢/SF	= \$ 322.76
Frontage	= 100 LF x 2.0136¢/LF	= \$ 2.01
TOTAL YEAR 1 ASSESSMENT		= <u>\$ 324.77</u>

The complete Year 1 – 2022 assessment roll of all parcels to be assessed by the EHBID is included in this Report as Appendix I.

**Step 5. Estimate Total EHBID Costs**

The total projected 10-year special benefits for 2022 – 2031 of the EHBID are shown in the Table on pages 20-21 of this Report assuming a maximum increase per year, commensurate to special benefits received by each assessed parcel.

**Step 6. Separate General Benefits from Special Benefits and Related Costs (Article XIID Section 4(b) of the California Constitution – Proposition 218)**

Total Year 1 special and general benefit related costs are estimated at \$281,438. General benefits are factored at 4.0734% of the total benefit value (see Finding 2 in the attached Engineer’s Report) with special benefits set at 95.9266%. Article XIID Section 4(b) of the California Constitution limits the levy of property assessments to costs attributed to special benefits only. The 4.0734% general benefit value is computed to be \$11,464 with a resultant 95.9266% special benefit limit computed at \$269,974. Based on

EAST HOLLYWOOD BID – ASSESSMENT ENGINEER’S REPORT

current property data and land uses, this is the maximum amount of Year 1 (2022) revenue that can be derived from property assessments from the subject District.

All program costs associated with general benefits will be derived from sources other than EHBID assessments.

**Step 7. Calculate “Basic Unit Cost”**

With a YR 1 - 2021 assessment revenue portion of the budget set at \$269,796 (special benefit only), the Basic Unit Costs (rates) are shown earlier in Step 4. Since the EHBID is proposed to be renewed for a 10-year term, maximum assessments for future years (2023-2031) must be set at the inception of the proposed renewed EHBID. An annual inflationary assessment rate increase of up to 6%, commensurate to special benefits received by each assessed parcel, may be imposed for future year assessments, on approval by the EHBID Property Owner’s Association. The maximum assessment rates for the 10-year proposed renewed EHBID term of 2022-2031 are shown in the Table below. The assessment rates listed constitute the maximum assessment rates that may be imposed for each year of the proposed renewed EHBID term (2022-2031).

**EHBID – 10-year Maximum Assessment Rates  
(Includes a 6%/Yr. Max Increase)**

TOTAL YEAR 1 ASSESSMENT		= <b><u>\$ 324.77</u></b>

The complete Year 1 – 2022 assessment roll of all parcels to be assessed by the EHBID is included in this Report as Appendix I.

**Step 8. Spread the Assessments**

The resultant assessment spread calculation results for each parcel within the EHBID are shown in the Management District and this Report and were determined by applying the EHBID assessment formula to each identified benefiting property.

**Miscellaneous EHBID Provisions**

**Time and Manner of Collecting Assessments:**

Assessments shall be collected at the same time and in the same manner as ad valorem taxes paid to the County of Los Angeles (Operation Years 2022-2031). The EHBID assessments shall appear as a separate line item on the property tax bills issued by the Los Angeles County Assessor. The City of Los Angeles is authorized to collect any assessments not placed on the County tax rolls, or to place assessments, unpaid delinquent assessments, or penalties on the County tax rolls as appropriate to implement the Management District Plan.

**Bonds:**

No bonds are to be issued in conjunction with this proposed renewed EHBID.

**Duration**

As allowed by State PBID Law, the EHBID will have a ten (10) year operational term from January 1, 2022 to December 31, 2031. The proposed renewed EHBID operation is expected to begin services on January 1, 2022. If the EHBID is not renewed again at the end of the proposed 10-year renewal term, services will end on December 31, 2031.
