Comments for Public Posting: Along with safe parking please open some of these gyms and rec centers so unhoused residents can shower properly! The gyms should've been used as a means for the city to pay some of them to stay open to help with shower services. All residents in cars should be protected at night while they sleep and should not worry about officers knocking on their windows to wake them up no matter where they decide to safely park. If you want to keep restrictions on residential streets that is understood but all other primary streets and parking lots should be open, and again rec centers and gyms for people to shower. This city has an issue with sanitation.

Council File No: 21-0111

Comments for Public Posting: I urge the full council to approve motion 21-0111. The Board of Transportation Commission (BOTC) should be removed from the approval process for Safe Parking Facilities. The BOTC is just a bureaucratic road block to the approval of desperately needed homelessness solutions throughout the city of Los Angeles. I attended a Zoom BOTC for a Safe Parking location, all of the commissioners stated they approve of the project but ultimately delayed the project for some meaningless bureaucratic reasons. This was just a waste of time and tax dollars. This motion is an important to removing red tape and delays the impede the implementation of desperately needed safe parking facilities. Thank you for your consideration.
