**Comments for Public Posting:** The proposed construction of two 20 story luxury apartment and commercial buildings by Jamison LLC on the block between Mariposa and Irolo on 7th St will directly negatively impact the lives of residents in Koreatown. As a resident of the Langham Apartments on Normandie Ave and 7th St I strongly oppose this construction. This construction not only brings noise pollution to my neighborhood but it also brings expensive apartment units that the working class population cannot afford amidst a continuing pandemic. In addition this construction is obliterating a plaza of small local restaurants on the corner of Irolo and 7th St. Koreatown already has an overcrowding issue with their high rise buildings in a compact area. These two 20 story towers will only exacerbate that issue. Listen to the people and oppose the construction of Jamison that will negatively impact the lives of residents in Koreatown. Thank you for your time, Devin (resident of The Langham Apts)
