Comments for Public Posting: There is already a severe parking crisis in this neighborhood and closing this parking garage to its hundreds of local tenants who live here will make it far worse. I pay to park here because it is unsafe for me to have to park several blocks away and walk home. Crime is very high in this area. Taking our parking garage away takes away our safety. Furthermore, Jameson does NOT take care of this property as is; monthly tenants are forced to walk through human feces, vomit, used drug paraphernalia and rotting garbage that remain in the only stairway / access way after hours for months at a time (see photos). They refuse to keep the property at the most minimum standard of hygiene and are known for being extremely combative and retaliatory to customers who complain. Ive attached photos of the human feces, urine, blood and vomit that tenants were forced to walk through for MONTHS during a global pandemic as this is the only access way into / out of the garage on 7th street after 7pm. These photos along with many similar ones were conveniently removed by the business from their google maps page right before this hearing. This is a historical block known for its historical buildings, which is why so many movie and television projects are filmed here. Putting a massive, modern eyesore in the middle of it would destroy the aesthetic and the hurt the building owners who profit off of filming here.

LORENA ♡
