Comments for Public Posting: Councilmembers: The Public Works Commission rejected a \$200K request from the City's Innovation Commission to fund the study you are requesting in this Motion, as well as related programming after the study results were obtained. It would be helpful if this Motion granted the Civil, Human Rights and Equity Department funding from the \$150M LAPD Defunding Motion to both write the report you are asking for with some degree of expertise, as well as any funding any pilot programs they may wish to implement to address disparities, after the fact.
Respectfully submitted, Michelle Bisnoff

Comments for Public Posting: Another fatuous and gratuitous bit of idiocy courtesy of the supreme Moron, MRod- Monica Rodriquez. Go ahead, monica, pander to thugs- blm and antifa- your fan base- go ahead and further undermine our police- because you don't really GAF about the safety of our communities- or the safety of our police- all you care about is scoring points with the radical Left Communists- You really want to know what our police will look like in 10 years? How about either democrat/communist State police-thugs with a badge, just like the Gestapo who do the bidding of politicians-- or non-existent because of moron politicians who pander to communist ideologies who undermine or just plain gut the police who stand up when there is a threat to the community-. Just as long as you and the other politicians like Nury Martinez get protection. right?
