**Comments for Public Posting:** We live in Eagle Rock and have a young son who enjoys using Eagle Vista Park for bike riding and playing on the jungle gym. We are concerned about the small houses that are currently being considered on the east side of Figueroa near the Freeway. Over the last year or so, we have noticed an sharp increase in trash on the street and in the park near Figueroa and Eagle Vista. Our son's day care is located near the park and we have been told that there have been several dangerous situations over the last year that have required police intervention to restore peace. Several of our friends who live near the park have shared that they are very uncomfortable walking on the east side of the park near Figueroa due to aggressive behavior from members of the homeless encampment. Thank you for listening to our concerns....

**Comments for Public Posting:** Good Morning, The Cadillac Hotel has been part of Project Room Key since April of 2020. We have run a very successful project along with LAHSA and St. Josephs. Now the program is demobilizing and it is not the right time. The virus cases are much higher than when we started the program. Participants are being moved from our site to alternate site which closes in April. The Cadillac represents the only hotel on the West side participating and as you know, the homeless population has grown significantly. The project goals are to protect and house homeless individuals. We have been very successful here! Every nurse or security guard claims we run the best project by a landslide. We are eager to continue to do so. FEMA has guaranteed the funds through September and we are on board. Please help us in our efforts. Thank you for your time. Jeff Luderer Cadillac Hotel Management

**Comments for Public Posting:** I urge the city council to support the development of tiny home communities as envisioned in this motion. We as a community must step up support for the unhoused members of our community. I also call upon the city to not utilize SECZs (Special Enforcement Cleaning Zones) around bridge housing.

**Comments for Public Posting:** As someone who does outreach to our unhoused neighbors in Eagle Rock, I support the Motion regarding the construction of Tiny Homes for the Eagle Rock Figueroa Parking Lot and for a Tiny Homes Village in a lot near the Arroyo in Highland Park. -I support this motion because the pandemic puts our unhoused neighbors at the greatest risk for COVID infection and tiny homes would provide immediate protection from the elements and provide much needed safety and security. -I ask that you prioritize our unhoused neighbors in Eagle Rock and Highland Park and that they be given priority to be housed in non-congregate bridge housing. I ask that you do not include SECZs (Special Enforcement Cleaning Zones) to the bridge housing sites. These SECZs have been shown to be a disruptive and invasive element using LAPD to kick unhoused people out of their tents and displacing them away from proximity to bridge housing sites. Regular sanitation and trash pick up is OK. -I ask that you include plans to build on-site bathrooms, showers, laundry and storage facilities. -Pets need to be welcome in order for this program to be successful or else it will only create more barriers to entry -I request that you provide access to case managers on a regular basis so our unhoused neighbors can be connected to resources and a lifeline with the goal of being connected and transitioned to permanent housing.

**Comments for Public Posting:** I do regular outreach for unhoused people in the Eagle Rock area with SELAH. As this item is considered for full city council, I am requesting: -that unhoused residents of Eagle Rock are given priority to be housed in non-congregate bridge housing; -that residents need tiny homes so that they may have protection from COVID infection; -that residents need to be protected from the elements; -that residents need safety and security; -that residents need bathrooms, showers, laundry, storage; -that pets are welcome; -that the city does not utilize SECZs (Special Enforcement Cleaning Zones) around bridge housing; -that residents have access to case managers; with the goal of being connected to permanent housing.
