Comments for Public Posting: We urge the City Council to resume comprehensive CARE+ homeless encampment cleanups and adopt common-sense amendments to Los Angeles Municipal Code sections 41.18 & 56.11, which regulate sidewalk camping and personal property storage. Thank you!

Comments for Public Posting: In support of resuming Comprehensive Homeless Encampments (CARE+) and adopt amendments to LAMC 41.18 & 56.11 for safe, clean, and accessible sidewalks for everyone in CD15. There is consistent encampments and individuals disregarding the 3 foot clearance rule. We are needing to put ourselves at risk for safety when having to walk on the streets as sidewalks are completely blocked with piled up items associated with homeless encampments. It is a landfill that we constantly see on a daily basis. We are advocating humane approach for both homeless individuals and for the public. Please deep clean public streets and sidewalks routinely, the homeless landfill is a health and environmental hazard.
