Comments for Public Posting: I fully support this motion. Observations and documented videos of CARE+ sweeps show little to no outreach or services being provided to people experiencing homelessness. The theft of personal belongings by the city is a crime and misuse of public funds. The presence of law enforcement at these sweeps serves only to intimidate people experiencing homelessness into compliance with these crimes. Sweeping away problems has never been a solution, and will do nothing to solve the crisis of homelessness we are in. Outreach MUST include care, counseling, and services, not cops, theft, and harassment.
