**Re: CF No. 09-0969-S3**

Dear Paul,

I am writing to oppose the raise of appeal fees payable by any homeowner, neighbor or person other than the developer from the current fee of \$89 to a new fee of \$16,000. This proposal creates a financial burden for residents to participate in the governing of the city based on income and essentially silences residents who cannot afford the fees from participating in city processes. Now, more than ever, is not the time to increase the cost of participation with the city.

Sincerely,

**Comments for Public Posting:** This increase is a disgusting attack on every citizen and resident by the city government to protect their neighborhood and families. The government is trying to attack our neighborhoods by increasing the costs to appeal system so we cannot afford to fight the government's control over our lives and protect ourselves against the government. This is an egregious increase so our neighborhoods can't afford paying the appeal costs so the government can approve developments without neighborhood's ability to protect themselves.
