Council File No: 18-0628

Comments for Public Posting: On behalf of the Hospital Association of Southern CA, we support the Council's effort to expand aggregate state and federal funds for purposes of expanding crisis and bridge housing throughout the city. In addition, would also encourage the city to established deadlines for opening these sites AND a establish a process that would enable hospitals to rapidly place individuals who meet criteria in these housing slots. This presents an ideal opportunity to engage individual experiencing homelessness.
