Summary: The Hermon Neighborhood Council requests that the following Community Impact Statement be attached/added to Council File 21-0031 regarding the adoption of service-based protocols for unhoused residents. April 2, 2021 Community Impact Statement to Support Voluntary, Service-Based Protocols for CARE+ Operations Council File 21-0031 The Hermon Neighborhood Council expresses our support for this Motion (21-0031) calling for CARE+ to adopt voluntary, service-based protocols citywide. Current CARE+ policies antagonize unhoused residents and may destroy essential personal property, including tents, medications, and identification documents. Additionally, the use of police in these operations can strain relations that community organizations and LAHSA have built with unhoused people. The collaborative approach set forth in the Motion would be not only more humane but also more effective, promoting public health with services such as mobile showers and bathrooms; regular, scheduled, and well-publicized cleanings; and LASAN pick-ups for bulky-items, trash, and hazardous waste. We believe this could be an effective strategy for the City to keep conditions sanitary and build better relations with its 41,000+ unhoused residents, while it works toward providing long-term housing to all those in need.
