Impact Information

Date: 04/13/2021

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 21-0052

Agenda Date:

Item Number:

Summary: This Motion proposes to set a goal and timeline that everyone, the City, County, State and Federal partners, are working towards. This Motion is requesting that the CLA and other City departments report back on necessary policies and the number of housing units of each type that need to be produced per year. The Eagle Rock Neighborhood Council recommends that, due to the urgency of housing needs of the unsheltered population in Los Angeles, these units should be made available for occupancy sooner than 2025, and that units are produced according to identified and projected needs.

SYSTEM ANALYSIS (CF 21-0052)**

COMMUNITY IMPACT STATEMENT

April 6, 2021

Los Angeles City Council
200 N. Spring St.
Los Angeles, CA 90012

On April 6, 2021, in a Brown Act noticed public meeting was held with a quorum of 14 board members present and that by a vote of 12 yes, 1 no, and 1 abstention, the Eagle Rock Neighborhood Council (ERNC) adopted the following Community Impact Statement concerning CF 21-0052.

The Eagle Rock Neighborhood Council supports this [Motion](#).

Over 41,000 Angelenos ([based on 2020 LAHSA Homeless Count](#) pre-COVID) are living on the streets of Los Angeles without shelter. Therefore, a multipronged approach is needed to provide homeless housing which incorporates a variety of strategies including building temporary housing, rapid rehousing, and preventing people from falling into homelessness.

This Motion proposes to set a goal and timeline that everyone, the City, County, State and Federal partners, are working towards. The goal is to use financial and land resources to house people as quickly and creatively as possible, to develop a system that has the capacity to rehouse individuals who fall victim to homelessness, generate a mechanism that can place unhoused people into temporary housing, and then relocate into permanent housing in a timely manner.

In March 2020 LAHSA released its Homeless Services System Analysis and reported that the City would need to have 45,941 total units consisting of temporary housing, transitional housing, rapid rehousing and permanent supportive housing. Currently the city only has 24,539 units. The report was released before COVID, therefore most likely the number of housing units needed is much higher.

This Motion is requesting that the CLA and other City departments report back on necessary policies and the number of housing units of each type that need to be produced per year.

The Eagle Rock Neighborhood Council recommends that, due to the urgency of housing needs of the unsheltered population in Los Angeles, these units should be made available for occupancy sooner than 2025, and that units are produced according to identified and projected needs.

Please place this letter in the case file, and acknowledge its receipt via email to: **executive@ernc.la**.
Thank you.

Respectfully,

Jesse Saucedo
