Taix is a special gathering place for the community. I cannot count the number of birthday parties, anniversaries, and special events I've attended there, and the number of good memories I've made there.

We are letting developers ravage this city and destroy everything that makes it special.

Do not let developers destroy Taix, and replace it with luxury apartments unaffordable to the community they are purporting to serve. Preserve it for the community and for future generations to enjoy.
