Council File No: 20-0680

Comments for Public Posting: I would like to say that this proposal presented,as is,will affect the quality of life for everyone living within the 500ft radius of this project.The fact that you will have 102 units with only 127 parking spaces will cause major spill over of cars,looking for overnight parking, into the surrounding neighborhood will be disastrous. There has to be two parking spaces per unit with a minimum of 20 visitor spaces.All that any of the city council members need to do is do is a drive around of the location to see that my statement is not an exaggeration.final words: the applicant must build within the current zoning with parking to match today's real-life reality that everyone owns more then one car and everyone receives visitors.Thank you for your time and attention to this very important matter.
