**Comments for Public Posting:** When we build tiny homes, please let's do it correctly. They should be standard size like a studio apartment with a full kitchen and a bathroom that has a shower & toilet. Lets place tiny and small homes in well put together communities and as always, we always give residents their keys. We are not gate keepers, our formerly unhoused or trying to prevent themselves from being unhoused are not in jail, please give them their keys.

Tiny homes should be standard size like a studio apartment. They need to include a bathroom that has a shower and toilet as well as a small kitchen area. Let's set a standard for free standing tiny homes so we can get full use out of them.
