Comments for Public Posting: CD15 There are too many non-profits involved in our social service programs which is running up costs. We need to revamp the existing DPSS that we have and expand services that they offer such as; 1. safe dwelling sites for car and tent dwellers 2. allowing unhoused residents that can help themselves get housed to call the DPSS or 211 to request either a hotel or apartment voucher if they can pass a background check on their own and have access to some income but can't afford overpriced rent. 3. Expand community-city-owned supportive housing, again why are we getting non-profits involved? We can hire our own social worker from DPSS to oversee the supportive housing with city security officers on-site but not police. Social worker can either assign jobs like "park cleanup" or request rehabilitation/health treatment in exchange for payment to the resident that agrees to assignments. 4. Prevent displacement; expand community-city-owned supportive, affordable, and market-rate housing. Rent never takes more than 30% of a worker's total income after taxes.
