Summary: The motion “that the City Council adopt the creation of at least 25,000 new units by 2025, ***regardless of the type of unit***, as the city’s Homeless Housing Goal” [emphasis added] should be amended to clarify that the types of units specified are temporary housing, transitional housing, rapid rehousing, and permanent supportive housing, and NOT market-rate apartments, luxury housing, or other housing that is not specifically directed toward the unhoused or people vulnerable to homelessness. We agree with the Atwater Neighborhood Council: this motion is a first step in declaring the intention to create enough supportive housing to care for our neighbors in need, but it must be followed by a tangible plan to finance, approve, build, and staff these facilities quickly, as well as increase the quantity and quality of outreach resources in order to build trust with our unhoused neighbors so they are prepared to move indoors when these units are built. If we delay the construction of much needed housing our homelessness crisis will increase while we debate the path forward.
