Comments for Public Posting: With the mayor's orders of allowing un-housed encampments 24/7 in public spaces, it has become a a MAJOR health hazard TO EVERYONE (both housed & un-housed) and additionally, the city is not ADA compliant with sidewalks blocked and streets full of "trash" or their "belongings" Un-housed residents and vehicle dwellers need to be forced into treatment and/or forced into housing, which ever is needed first. If they are addicted or mentally ill, how can you allow them to make decisions for themselves, and say "no, I don't want to be housed" ? There are veterans, women and kids too that need help. In our district alone (CD12) there have been 2 missing females within hours of each other this week. With the increase in housing built for the un-housed and/or vehicle dwellers, there should be no reason for street and sidewalk encampments. Encampments need a Comprehensive Cleaning ASAP, not only in our area of CD12, but citywide. ADDITIONALLY, The following LAMC need to be ENFORCED by the city and/or RE-INSTATED: 85.02 56.11 647(e) Just to name a few, here are some locations that un-housed residents in CD12 who refuse services and housing based on 211 outreach responses that I have received in trying to help them: 1. Several Tents with males in them on Canoga Ave., at Devonshire in Chatsworth 91311 2. Lone elderly female at bus-stop on Devonshire, at De Soto in Chatsworth 91311 3. Several Tents and overflow of their trash or belongings on Nordhoff St., in between Owensmouth & Jordan Ave., in Chatsworth 91311 4. Balboa & Devonshire, in Granada Hills 5. Chatsworth Train/Bus Station-10040 Old Depot Plaza Rd, Chatsworth, CA 91311
