Comments for Public Posting: The city should NOT be destroying unhoused residents tents and disrupting their lives. Clean the areas around the tents, provide trash cans and mobile shower services for them. The city should not be making their lives even harder than they already are! The state created this problem but allowing developers to speculate on our land space and price residents out of the housing market, there is no reason it should be criminalizing unhoused residents for simply existing! Our social service program needs to be reformed, we need one department in each sub city /neighborhood that handles housing, healthcare, and food!
