**Comments for Public Posting:** My name is Daniel Herrera. I go to Thomas Starr King Middle School. I'm currently in 6th grade. I am taking a class called Lost LA where we are learning about the history of what happened in LA like the story behind Dodger Stadium, The Chinese Massacre, and Movie Industries. I am writing to you because I want to tell you to save and conserve the International Institute of Los Angeles. This is a great historic building that cannot be replaced or demolished, it is part of our history and who we are. This building has so many traits but the most important trait or what it was most known for was for helping immigrant women to adapt their lives and without that, women wouldn't be here to this day. It could even help women right now but my points that this place is a big part of us and our city and if sooner or later it is gone we will forget about this and we don't want that. So to summarize, this building cannot be demolished or gone. It is part of us and is something many people look up to so I am writing in support for the nomination to preserve this historic place. Thanks for your time and for reading this message.
