Comments for Public Posting: I am in support of this project. Let's let the applicant build as soon as possible. This city needs more well designed projects! The developer has been working for way too long to try to get this going. The property is a blight to the neighboring property owners and residents. I am a stakeholder in support of this project. I have property on the 4300 block of Gateway and my view is directly at the old Bates Motel. Let's let them get going.
