Comments for Public Posting: We strongly objection to the proposal to house homeless at Will Rogers Beach. Doing so would decrease accessibility to the beach for all of Los Angeles residents. It would increase risk of fires, theft and violence to all beachgoers. There is significant risk of the homeless wandering onto PCH endangering themselves and drivers and creating a traffic nightmare. There are no services or stores close by. We want beaches kept clean and safe of all LA residents. This is such an obviously and monumentally bad idea, I hope you will quickly defeat it. Thank you.
