**Comments for Public Posting:** RE: a crane dangling over city land to build another market rate luxury We would like to expound on some details in Cedillo's 5/4 motion In re: to Blossom Plaza aka Little Joe's - Developer Kevin Ratner of Forest City said he wanted to turn Broadway into the new "Abbott Kinney" hes also chair of Sci ARc . That some racist talk. it's in the papers. Is that why the city gave him the land? This is USC housing. This is a scam. We are amazed by the developer pocket stuffing going on. maybe he'll hit the Zanja Madre again and you will le Lauren Bon take the pieces. We miss Pho Broadway and the owners were terrified of losing their business. We miss not being kicked out of our own neighborhoods. This is a Development thats a middle finger to Chinatown. And College station will seal the deal. But first let's deal with "Harmony" ONLY 9 Affordable units in this new project? out of 178 units and 24 stories? Its called usc housing . Just like Blossom Plaza. It sites half empty . The people of LA should charge rent for that crane dangling over the city owned airspace. The people of LA should charge Kevin Ratner with Racism and Paid Callers. I
