**Comments for Public Posting:** This is careless, dangerous and unsafe for our communities and not how to effectively use our tax payer money to help the homeless. There are other ways and means to find help and care in a safe area that will not damage our neighborhoods. These homeless need mental care and have drug issues. They do not need to be living in parking lots near liquor stores and dangerous highways, defacating, leaving needles and bottles on our beaches, where our children play and setting fires near our homes is not the answer. it is reckless, to say the least. All this is not conjecture...it has happened while living here. From a longtime concerned Santa Monica resident.
