Comments for Public Posting: I have lived in Chatsworth for 35 years. As a taxpaying Citizen I wish to go on record against what is happening in my once beautiful town Now it is strewn with shopping carts, feces, needles, tarps and mentally ill people and addicts coming in on the train . The public restrooms are locked at the station because of this issue and the tents all over and the takeover of our bus benches is reprehensible Please do not approve a homeless 4 story shelter across from a elementary school Travel lodge already sold out, and now you want a third one ???? John Lee fought against this but you ignored all the citizens complaints Find another town to ruin , you politicians have done a great job destroying Chatsworth and for what ? Until we have mental facilities and rehabs these people will only bring the street into a new \$430,000 unit on the taxpayers dime Your message is become homeless you live for free Use the money for facilities first to fix the problem
