**Comments for Public Posting:** Dear PLUM Committee: As a stakeholder and small business owner within the City, I wanted to voice my unwavering support for the proposed Local Emergency Code Amendment Ordinance that would grant us the much needed parking relief necessary to promote business and employment in my business and to all small businesses with whom we interact on a daily basis. My commercial real estate investment firm would be able to lease space to the highest and best use rather than be left with dark space or vacant space, thus eroding profits and diminishing our ability to pay taxes and hire employees. Please grant us this much needed relief so that we can recover from the effects of the shift to e-commerce, the negative impact from the pandemic, and the reduced need for parking as the ride sharing trend has continued to exponentially grow. Respectfully, David Hay

**Comments for Public Posting:** Regarding Parking in our community - I think you're making a terrible mistake by relaxing parking spaces for New Buildings. All that does is crowd our streets even more. ALL new buildings should have adequate parking spaces - not less! Stop giving developers who don't care one bit about our community breaks. ALL apartments and new buildings need adequate parking places.  
Sincerely, Donna
