**Comments for Public Posting:** This is a filing of opposition to the reckless and unsafe movement to place houseless people at Will Rogers State Beach. This area is a poor and unsafe option for the following reasons: 1. PCH is a freeway with 6 high speed lanes of traffic and no crosswalk nearby 2. There is no access to public services, food or transportation 3. There is no access to Mental Health, Medical, Drug Treatment anywhere in the vicinity. 4. The public has a distinct right and interest to use the parking lot and beach for recreation. This will become unsafe under the plan as has occurred in Venice. 5. An isolated area with direct access to the beach, ocean and bike path will make it impossible for law enforcement to properly maintain legal safe habitation and place the safety of the community at risk. Please vote down this unsafe idea and require a more appropriate and comprehensive, long term solution to the houseless issue. Paul and Lori Guggenheim

**Comments for Public Posting:** It is very unconscionable that it would be considered by any city entity to create another disaster at Will Rogers' Beach compared to that created at the Venice Beach Boardwalk area. If you are serious about the serious problem that has escalated due to inattention, please do your job and find a solution that makes sense. There's been enough time, if this was a priority, which obviously it has not been until it's become a crisis. Why should the hard working, caring, property owners of the city bear tkhe burden of ensuing disruption to their neighborhood as lawlessness, and undoubtedly crime will become issues of concern. What have you been doing to honestly solve the problem? Putting band aids along the way is not the solution. Does the city have the resources to find and utilize unused land on the outskirts, provide, resources needed there to people of need, and through a classification system of their status and needs HELP THEM IN A REALISTIC AND VIABLE WAY !

**Comments for Public Posting:** I oppose the decision to use our parks and beaches to house homeless people. I am infuriated that this is even being contemplated! What a disappointment!
