Comments for Public Posting: The proposal to house homeless people on the public parking lot at Will Rogers State Beach is outrageous. These parking lots serve to provide the public of our city to access our beaches. Especially in times of hot weather. Parking is limited as it is in these locations and it is no place to create a homeless encampment. The city Council should put the concerns and needs of the majority of their constituents ahead of the needs of a small group of individuals that although may be politically and fashion to be involved then, another nevertheless are ridiculous and ill conceived solutions to these problems. You should prioritizing tax paying citizens ahead of any other group. If you want to donate your time to charities and causes when you're not working for the citizens of the city feel free to do so.
