**Council File No. 21-0549**  
**Council Hearing – 06/15/2021**  
**BPW-2021-0397**

The Honorable City Council  
Room 395  
City Hall.

Honorable Members:

Inasmuch as no one protested the assessments pursuant to the hearing scheduled this date, in connection with the maintenance for the Annual Assessment for Street Lighting Maintenance and Operation for 2021/22 – Los Angeles City Lighting District (Assessments and District Frozen Since 1996), the Board of Public Works recommends that the assessments therefore be confirmed.

The Bureau of Street Lighting has indicated that the final Ordinance for said Council Hearing will be submitted via separate cover to the Office of the City Clerk for City Council consideration.

Respectfully submitted,

DR. FERNANDO CAMPOS,  
Executive Officer, Board of Public Works

FC:lc

Cc: Director of Street Lighting  
City Engineer

## FINAL ORDINANCE

DEPARTMENT OF PUBLIC WORKS  
BUREAU OF STREET LIGHTING  
REPORT NO. 1

May 14, 2021

C.D. Ail

Honorable Board of Public Works of the City of Los Angeles

**ANNUAL ASSESSMENT FOR STREET LIGHTING MAINTENANCE AND OPERATION FOR  
2021/22 – LOS ANGELES CITY LIGHTING DISTRICT (ASSESSMENTS AND DISTRICT  
FROZEN SINCE 1996)**

---

**RECOMMENDATIONS**

1. That your Board, in accordance with Section 6.98 of the Administrative Code of the City of Los Angeles, adopt and forward this report and transmittals to the City Clerk and City Council with the recommendations that:
  - (a) Council adopt this Report and the Ordinance of Intention for the Los Angeles City Street Lighting Maintenance Assessment District (LACLD), (Transmittal No. 2), under which individual maintenance assessments, and the composition of the District will remain substantially the same as in **2020/21**, and therefore assessments will be exempt from the “procedures and approval process” (section 4 of Proposition 218) as allowed in section 5 of Proposition 218. **No assessments will be increased and no properties will be added to this District. Therefore, no ballots will be required.**
  - (b) Proceedings for the maintenance of the LACLD for fiscal year **2021/22** be conducted in conformance with Division 6, Chapter 3, Article 1 of the Los Angeles Administrative Code, California Government Code Section 53753.5 and Proposition 218 (Articles XIII C and XIII D of the California State Constitution). **At the conclusion of the Council Public Hearing, assessments be confirmed and an ordinance levying the assessments be adopted.**

Confirmation of the assessments by **July 31, 2021** is necessary to meet the County deadline for inclusion of the assessments on the **2021/22** Property Tax Bills.

2. That your Board submit a copy of this report and its transmittals to the City Administrative Officer for review and comment prior to your Board’s public hearing, per their request in the 1987 Management Audit of the Bureau of Street Lighting.

**FISCAL IMPACT STATEMENT**

Approval will result in assessment revenue of about **\$42,124,040** to the Street Lighting Maintenance Assessment Fund (SLMAF) for **2021/22** street lighting operations, slightly **less** than in **2020/21**. An amount of **\$2,600,000** is budgeted from the Water and Electricity Fund for the City’s share of the Public Property assessments. About 510,000 parcels are included in this assessment district.

**TRANSMITTALS**

1. Draft of an Ordinance of Intention approved as to form and legality by the City Attorney.
2. Final Cost Estimate for Operation of the Street Lighting in the LACLD.

3. Specifications for the Operation of the Los Angeles City Street Lighting Maintenance Assessment District for **2021/22**.
4. Proposed assessment roll.

### SUMMARY DISCUSSION

Approval of this report, adoption of the Ordinance of Intention, holding of the public hearings, and adoption of the Final Ordinance by Council, with approval by the Mayor, is required under Sections 6.95 to 6.127 of the Los Angeles Administrative Code to levy the assessments needed to operate the Los Angeles City Street Lighting Maintenance Assessment District (LACLD) for **2021/22**. The **\$42,124,040** in annual assessments is the primary source of revenue for the Bureau of Street Lighting's operating budget and other street lighting expenses. The assessments are collected through the County Property Tax Bills, and therefore the assessments must be confirmed by the Council by **July 31, 2021** to ensure that the information can be included on the tax bills.

In summary, the total estimated cost of LACLD street lighting operations for **2021/22** is **\$68,323,886** of which **\$42,124,040** is proposed to be assessed to benefiting properties, including City-owned properties, in accordance with established Council policy. The remaining **\$26,199,846** (**\$1,400,693.56** carry over from previous fiscal year) in costs are funded from other sources of revenue, including miscellaneous receipts, reimbursements from other agencies, and collections for damage claims, permits & fees, and maintenance agreement receipts. An appropriation of **\$2,600,000** from the Water & Electricity Fund is budgeted for the public property street lighting maintenance assessments.

***SINCE INDIVIDUAL MAINTENANCE ASSESSMENTS, AND THE COMPOSITION OF THE DISTRICT WILL REMAIN SUBSTANTIALLY THE SAME AS IN 2020/21, THEY ARE EXEMPT FROM THE "PROCEDURES AND APPROVAL PROCESS" (SECTION 4 OF PROPOSITION 218) AS ALLOWED IN SECTION 5 OF PROPOSITION 218. NO ASSESSMENTS WILL BE INCREASED AND NO PROPERTIES WILL BE ADDED TO THIS DISTRICT.***

### SIGNIFICANT ITEMS AFFECTING THE ESTIMATE

#### REVENUES

- **STREET LIGHTING MAINTENANCE ASSESSMENTS** – The Bureau collects 98% of all assessments levied against benefitting property owners.
- **ACCELERATED HIGH VOLTAGE CONVERSION PROGRAM (MICLA)** – The Bureau will be converting the remaining 3,150 high voltage streetlights to energy efficient low voltage LED streetlights next fiscal year.

## EXPENDITURES

- **ELECTRIC RATES** - The annual bills for electricity for the LACLD are estimated to total \$10,120,000 for 2021/22.
- **STREET LIGHTING MAINTENANCE ASSESSMENT FUND (SLMAF)** – The SLMAF covers design, operation, and maintenance of the street lighting system (220,000 streetlights).

## OTHER SIGNIFICANT ITEMS

- **REVIEW OF ASSESSMENT FUND REVENUES** – In fiscal year 2021-22 the Bureau will be reviewing the assessment fund to ensure that all assessments are accurate and being properly collected.
- **CITYWIDE ASSESSMENT BALLOT** – In fiscal year 2016-2017, the Bureau worked with a consultant to establish a detailed plan for a Citywide LACLD ballot proceeding. The consultant concluded its study and recommendation in fiscal year 2017-18 to move forward with the LACLD ballot. The CAO's Needs Analysis Report contract was completed in FY 2019-20. The Bureau expects to award a personal service contract in 2021 to NBS Government Finance, Inc. for a database software that will calculate street lighting maintenance assessments for over 550,000 parcels to better position the Bureau to conduct a Citywide mail in ballot process in the Winter of 2022.
- **WIRE THEFT** – The City of Los Angeles has over 220,000 streetlights that are powered through underground conduit with copper wires. The use of high strength, composite, lockable pullboxes along with increased awareness by the LAPD and the public have been instrumental in reducing copper wire theft. This year the Bureau has seen an increase in power theft due to the homeless population over the past few years.
- **REMOTE MONITORING CONTROLS ON STREET LIGHTING POLES** – The Bureau will continue to install remote monitoring controls on street lighting fixtures as well as monitor energy use and the status of each light. The streetlights are able to identify themselves to the network instantly using mobile technology embedded into each fixture. This smart plug-and-play approach not only reduces the cost of installing each fixture, it reduces the time of commissioning and eliminates on-site commissioning completely. Additionally, the entire system will be securely controlled and managed remotely through a web browser. We envision this will provide infrastructure for future Smart City applications.
- **VISION ZERO** - Vision Zero Los Angeles is premised on the fundamental principle that loss of life by traffic collision is unacceptable. The goal of Vision Zero is to target all traffic fatalities with an emphasis on the most vulnerable users of our streets; people who walk and bicycle. Our Bureau has developed a list of prioritized lighting projects to improve safety on the High Injury Network which identifies streets with a high concentration of traffic collisions that result in severe injuries and deaths. We will continue to incorporate strategies into intersections and crosswalks at mid-blocks to improve safety.

- **POLE PAINTING** – The Bureau repaints deteriorated metal found on our street lighting poles. Pole painting is an essential part of the maintenance of street lighting poles. Street lighting poles should be painted every 7 to 10 years. The street lighting pole begins to deteriorate if it is not painted on a regular cycle. This deterioration leads to higher painting costs. Without proper painting and maintenance, the street lighting pole is in danger of corroding to the point that it can fall down. This is a liability for the City and is an important public safety issue.
- **SMART CITY** – The Bureau has been at the forefront of the Smart City movement with our conversion to LED-lighting years ago. As technology advances, we are working to develop a Smart City network and develop a plan to incorporate new technologies into our Street Lighting infrastructure. The Smart City endeavors help to enhance connections that provide the backbone of transmission of data regarding the streetlights, collect helpful data through various sensors (i.e., air quality, audio, motion, etc.) attached to our streetlights, attach EV Charging stations, and pilot emergency streetlights.
- **FUSE FELLOW – STRATEGIC PLAN** – In FY 2021-22 we will have a FUSE Fellow to manage our website redesign. This will enable improved Bureau services, and better accessibility for all Agencies. This will accommodate the Bureau's enhanced community engagement plans, planned data reporting, and strengthen customer services. FUSE is a national non-profit that partners with local governments to help urban communities thrive. The FUSE Fellow will also be responsible for coordinating joint media projects with the Public Affairs Office, and organizing website materials and content requirements.

### PROPOSITION 218

Shortly after approval of Proposition 218 on November 5, 1996, we conferred with experts in assessments in the private sector, in other cities, and within the City, including the City Attorney, CAO, CLA, City Clerk and others to ascertain and deal with the impacts on assessments, particularly for this District. Our conclusions, concurred in by the City Attorney, are:

1. This assessment district can be renewed, a year at a time, and is exempt from the voting, mailed notices and other requirements of Proposition 218, Section 4, as long as the assessments and the composition of the District are not increased or added to from the previous year.
2. When an increase becomes necessary, a ballot and notice must be mailed to all property owners in the District; if a weighted majority of the votes received are against the increased assessment, it cannot be levied.

### STREET LIGHTING MAINTENANCE ASSESSMENTS – FINAL ESTIMATE

Transmittal No. 2 is the FINAL ESTIMATE of expenditures and revenues for the 2021/22 LACLD. It also provides a description of the cost and revenue elements of the estimate, and the basis for the street lighting maintenance assessments that are levied by City Council.

The assessments to about 510,000 individual properties (about 2/3 of the City) will remain the same as in **2020/21**. Properties without streetlights (about 1/3 of the City) are not assessed. A typical R-1 property with a 50-foot frontage which was assessed \$53.07 in **2020/21** will be assessed the same amount in **2021/22**.

This estimate has been prepared consistent with Council Policy in Administrative Code Sections 6.95-6.127, and on the basis of maintaining the Street Lighting Maintenance Assessment Fund in a solvent condition throughout the next fiscal year. The major portion of the revenue to this Fund is planned to be secured from the annual assessment to benefiting properties, which comprise the LACLD. The Bureau of Street Lighting (BSL) budget is also financed from the SLMAF. Therefore, we depend on reimbursement of design fees and other charges to the SLMAF from other funds and agencies.

### PROCEDURES FOR CONFIRMING THE ASSESSMENTS

Upon approval of this report and adoption of the Ordinance of Intention by the Council, dates will be set for hearing appeals, one hearing at the Board of Public Works, and then one hearing at the Council. After consideration of the appeals, Council may vote to confirm the assessments, and to adopt a Final Ordinance ordering the maintenance work to be done and the assessments to be levied. ***This must be completed in time to submit the necessary information to the County Tax Collector for inclusion with the Property Tax Bills, to avoid a costly, separate City billing preparation, mailing and collection. The Council must confirm the assessments by July 31, 2021 to be included in the County Property Tax Bills.***

The assessment diagrams of lands previously approved for assessments, except for assessments first confirmed in 1996/97 and thereafter, are available, and the roll of individual assessments proposed to be levied within the district is being prepared by our assessment engineering staff. These documents will be available prior to the publication of the Notice of Public Hearing. The Ordinance of Intention for the LACLD has been approved as to form by the City Attorney.

Report Prepared By:

Respectfully submitted,

Ruben Flamenco, Division Engineer  
Street Lighting Assessment Division

Bureau of Street Lighting  
Miguel Sangalang, Director

## ORDINANCE NO. \_\_\_\_\_

An Ordinance pursuant to the provisions of Section 6.95 - 6.127 of the Los Angeles Administrative Code, Sections 53753.5 of the California Government Code, and Proposition 218 (Articles XIII C and XIII D of the California Constitution) declaring the intention of the Council of the City of Los Angeles to order the necessary street lighting systems to be operated, maintained and repaired, including furnishing electric energy, for a period of one year ending June 30, 2022 for the lighting of that certain district designated as the **LOS ANGELES CITY STREET LIGHTING MAINTENANCE ASSESSMENT DISTRICT** ("MASTER DISTRICT") in the City of Los Angeles. The "MASTER DISTRICT" was created for administrative convenience and is comprised of individual "COMPONENT DISTRICTS" created prior to the effective date of Proposition 218 to fund street lighting related services and/or activities.

The boundaries of the COMPONENT DISTRICTS and the individual assessments for each property within the COMPONENT DISTRICTS remain unchanged from the assessment year preceding the effective date of Proposition 218. No assessments will increase and no new properties will be added to the involved COMPONENT DISTRICTS. The city may from time to time delete all or a portion of COMPONENT DISTRICT from the MASTER DISTRICT but only if such change will not increase any individual COMPONENT DISTRICT assessment amounts beyond the last pre-Proposition 218 assessment amount. Such COMPONENT DISTRICTS are therefore exempt under section 5 of Proposition 218 from the procedures and approval process set forth in section 4 of Proposition 218.

### THE PEOPLE OF THE CITY OF LOS ANGELES DO ORDAIN AS FOLLOWS:

Section 1. The public interest and convenience require, and it is the intention of the Council of the City of Los Angeles to order the following improvement to be made, to wit:

That the necessary street lighting systems be operated, maintained and repaired, including the furnishing of electric energy, for the period of one year ending June 30, 2022 for the lighting of:

All those streets, alleys, and other public places within the boundaries of the City of Los Angeles that have heretofore been assessed for such services for the period of one year ending June 30, 2021, except all those COMPONENT DISTRICTS assessed for the first time in 1996/97 and thereafter. The COMPONENT DISTRICTS to be assessed to pay the costs and expenses of this improvement shall collectively be known as the "**LOS ANGELES CITY STREET LIGHTING MAINTENANCE ASSESSMENT DISTRICT**" ("MASTER DISTRICT"). The lighting districts in such MASTER DISTRICT can also be described as those lighting districts with assessment diagram numbers 1

through 11161, not including assessment diagram numbers 9953, 10803, 11136, 11138 and 11140 through 11153, as more fully described in sections 2 and 4 herein.

Sec. 2. All of the said work shall be done in accordance with the report, prepared and approved by the Director of the Bureau of Street Lighting adopted by the Board of Public Works, therefore, approved by the City Council and on file in the office of the City Clerk. Reference to said report is hereby made for a full and detailed description of the proposed improvement and of the assessments to be levied.

Sec. 3. The said Council hereby makes all the costs and expenses of said improvement, including incidental expenses, chargeable upon the COMPONENT DISTRICTS to be benefited thereby, with no additional portion of the costs to be paid out of the City Treasury.

Sec. 4. The Council hereby determines and declares that the COMPONENT DISTRICTS which receive special benefit from said improvement and are to be assessed to pay the costs and expenses thereof, are described by the diagram included by reference in the said report of the Director of the Bureau of Street Lighting adopted by the Board of Public Works, which diagram indicates by a boundary line the extent of the territory included within each said COMPONENT DISTRICT. Reference is hereby made to said report and diagram for a full and complete description of said COMPONENT DISTRICTS, which diagram shall govern for all details as to the extent thereof. Diagrams showing the territory of the COMPONENT DISTRICTS are on file in the office of the Bureau of Street Lighting, 1149 S. Broadway, 2<sup>nd</sup> Floor, Los Angeles, California, 90015. All public streets and alleys or portions thereof are hereby excepted therefrom.

Sec. 5. That the proceedings for the said improvement shall be had and taken under and in accordance with Section 6.95 - 6.127 of the Los Angeles Administrative Code, Sections 53753.5 of the California Government Code, and Proposition 218 (Articles XIII C and XIII D of the California Constitution).

Sec. 6. The Board of Public Works shall cause notices of said improvement to be published in newspapers of general circulation published and distributed in the several areas of the City in the manner and form and within the time required by law.

Sec. 7. That \_\_\_\_\_ at the hour of 10 o'clock a.m. is the time, and the Council Chamber on the third floor of City Hall in the City of Los Angeles is the place, when and where a public hearing on the proposed improvement and assessment will be held by the City Council. Any person objecting to their assessment may file a written protest or appeal with the City Clerk at any time prior to this confirmation hearing by the City Council. Any person may also present written or oral comments at the City Council testimony meeting on this matter. Such protest must contain a description of the property in which each signer thereof owns an interest, sufficient to identify the property, and be delivered to the City Clerk, and no other protests than those presented within the time specified will be considered.

Sec. 8. The City Clerk shall certify to the passage of this ordinance and have it published in accordance with Council policy, either in a daily newspaper circulated in the City of Los Angeles or by posting for ten days in three public places in the City of Los Angeles: one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall; one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall East; and one copy on the bulletin board located at the Temple Street entrance to the Los Angeles County Hall of Records.

Approved as to Form and Legality

MICHAEL N. FEUER, City Attorney

## TRANSMITTAL NO. 3

SPECIFICATIONS FOR THE OPERATION OF THE  
LOS ANGELES CITY STREET LIGHTING MAINTENANCE ASSESSMENT DISTRICT  
IN THE CITY OF LOS ANGELES  
FOR 2021-22

**WORK TO BE DONE.** The work and improvement to be done shall be the operation, including furnishing electric energy and timing/switching; maintenance, including lamp changing, emergency services, pole painting, fixture cleaning and glassware replacement, and rehabilitation, which includes modernization and replacement of systems; repairs, including poles, conduit, wiring and fusing, and fixtures repair and replacement; management of the funds, records, engineering, equipment approval and testing, administration and assessments, buildings, vehicles, equipment and materials; and related activities for the street lighting system designated as the LOS ANGELES CITY STREET LIGHTING MAINTENANCE ASSESSMENT DISTRICT (LACLD), for the period of one year ending June 30, 2022, in accordance with the report of the Board of Public Works therefore, on file in the office of the City Clerk.

**AUTHORITY.** The said work and improvement is to be made under and is to be governed in all particulars by the Charter of the City of Los Angeles, Article V section 580 and other sections; the Los Angeles Administrative Code, Sections 6.95-6.127; Proposition 218 (Articles XIII C and XIII D of the California Constitution), the Report adopted by The Board of Public Works, and the Ordinance of Intention to be hereafter adopted therefore.

**LIGHTING SYSTEM.** The street lighting system consists of electroliers, luminaires, and lamps, together with the necessary conduits, cables, wires, and other appurtenances. Plans showing the location and description of said equipment are on file in the office of the Bureau of Street Lighting and are hereby referred to and made a part of these specifications. The properties to be benefited by the work and improvement are designated in the assessment diagrams on file in the office of the Bureau of Street Lighting, Assessment Engineering Division, and are hereby referred to and made a part of the specifications.

**OPERATION SCHEDULES.** The lighting system shall be lighted in accordance with the All Night and 1:00 a.m. schedules of operation, and minor exceptions, as agreed upon by the Department of Public Works and the Department of Water and Power, or other utility suppliers.

**ELECTRIC ENERGY.** It is contemplated that the City of Los Angeles, through its Department of Public Works, will purchase electric energy for the LACLD as it may deem necessary from the Department of Water and Power, or other utility suppliers, in accordance with the terms, conditions, and rates prescribed for in such services as have been agreed upon by the Board of Public Works and the utility supplier, and approved by the City Council.

MAINTENANCE. The Department of Public Works through its Bureau of Street Lighting will itself perform the work, or will contract for certain work with the Department of Water and Power, or private companies, in providing normal maintenance for the LACLD in accordance with the terms, and conditions as have been agreed upon by the Board of Public Works and the supplier, and approved by the City Council.

REPAIRS. The Department of Public Works will itself perform the repair work, or will contract for certain work with private companies, provide the materials, equipment and expense, appliances, other appurtenances and appurtenant work necessary to repair the street lighting system. This may also require approval by the City Council.
