**Comments for Public Posting:** I support the protection of existing low income/middle income housing in coastal areas. Developers and their politician buddies are ruining communities, across this state, in their money grab in under the guise of "building affordable housing" Which is patently untrue- small housing gets knocked down and wildly expensive units are built- this has to stop- stop ruining the livability of this state- perhaps if politicians didn't encourage unhindered illegal immigration, our housing problem would not be near the severity you keep pushing on us
