Summary: We, the Mid City Neighborhood Council, applaud the City council's initiative to explore ways to sequester carbon, increase water capture, and support biodiversity by rebuilding healthy soil through urban agriculture. We are thrilled to hear that, if passed, Council File 20-1225 would also explore adding green jobs to our economy, may result in the use of fewer harmful chemicals in landscaping by the city, and may unpave underutilized space to be used for composting or mulching operations.
